The lance is meant to be lost. Riders hurl themselves at the foe at full gallop, drive their explosive-tipped lances home, then draw cavalry sabres for the wheeling slaughter that follows.

ABILITIES

Faction

Voice of Command (the squad benefits from Officer Orders but cannot issue them).

Cavalry Charge

Each time this unit finishes a Charge move, until the end of the turn, hunting lance attacks made by models in this unit have the [LANCE] and [DEVASTATING WOUNDS] abilities. After resolving any hunting lance attacks this combat, replace the Hunting lance profile with the Cavalry sabre profile for the rest of the battle (the lances are consumed in the charge).

Outriders [SCOUTS 8"]

This unit has the **Scouts 8"** ability. Reflects the Rough Riders' classic role as scouts and outflankers in pre-8th Ed lists.

Crushing Pursuit

Each time this unit declares a Charge against an enemy unit that contains 5 or more models, you can re-roll the Charge roll. A wall of horses and lances is not slowed by infantry alone.

Squad Composition

1 Rough Rider Sergeant + 4 Rough Riders (standard). One model may carry melta-bombs (replacing nothing). The Sergeant can swap their laspistol for a plasma pistol or their hunting lance for a power weapon.

Regimental Origin

When this unit is included in a Detachment, choose one regimental keyword to add: **Tallarn**, **Mordian**, **Valhallan**, **Catachan**, or **Cadian**. (This is the generic Imperial Guard Rough Riders datasheet — for the canonical 10e Legends **Attilan Rough Riders** datasheet with its distinct cyber-horse mounts, use the Attilan BSData entry instead.)

Designer's Note

Homebrew — 7th Ed source. Generic Imperial Guard Rough Riders were a unit across 3rd-7th Ed Codex: Imperial Guard / Astra Militarum — available to any regiment with living-mount cavalry models. They were dropped from canonical 10e (only the **Attilan Rough Riders** Legends datasheet remains, and that one uses cyber-horses giving them T5 and additional wounds). This homebrew preserves the generic version: lighter (T4/W2), SV5+, one-shot Hunting Lance on charge, Scouts 8", and the classic "explosive lance becomes cavalry sabre after the first combat" mechanic. The Regimental Origin keyword lets the same datasheet stand in for Tallarn, Mordian, Valhallan, Catachan, or Cadian outrider squads.
