Abilities

Faction — Sons of the Legions

Generic Legiones Astartes (HH) datasheet usable by any of the 18 Legions. Treats as **Oath of Moment** (Loyalist) or **Dark Pact** (Traitor) for 40K interop.

Core

Deadly Demise D6, Deep Strike.

Transport

This model has a Transport capacity of 20 Legiones Astartes models. Cataphractii/Tartaros Terminators count as 2 each. Saturnine Terminators count as 3 each. Cannot carry Dreadnoughts (use Dreadclaw for that).

Drop Pod Assault

This model must begin the battle in Strategic Reserves. It arrives via Deep Strike anywhere on the battlefield more than 9" from enemy models. After arrival, embarked units immediately disembark within 3" of the Kharybdis and are eligible to declare a Charge.

Storm Cannon Volley

When this model arrives from Reserves, it may immediately fire all of its weapons at full BS — this counts as the unit's shooting for that turn.

Immobile (post-landing)

After landing, this model cannot move. It can still be targeted and destroyed.

Ranged Weapons

Weapon	Range	A	BS	S	AP	D	Keywords
Storm cannon (turret, default — 4× cannons)	36"	8	3+	6	-1	2	Heavy Sustained Hits 1
Heavy bolters (paired hull, default)	36"	6	3+	5	-1	2	Sustained Hits 1

Designer's Note — Kharybdis is the Heresy's heavy assault drop pod — larger than a standard Drop Pod (20 model capacity vs 10) and equipped with a storm cannon turret for landing-zone suppressive fire. No 10e analog. HB: T11/Sv3+/W12 + Deep Strike + Transport 20 + Storm Cannon Volley (full-BS shooting on the turn of arrival) + Immobile post-landing. 195 pts. Pair with the Master of Descent (no-scatter) and a Praetor with Cataphractii Chosen retinue for the iconic Heresy alpha-strike package.
