ABILITIES

The Night Hunter

At the start of your Command phase, select two The Night Hunter abilities. Until the start of your next Command phase, this model has those abilities.

Shadow Step

In the Fight phase, before this model fights, it can move up to 6" (it cannot move within Engagement Range of non-target enemy units). This move does not count as a Fall Back move.

Reign of Terror [AURA]

While any enemy unit is within 6" of this model, models in that unit must subtract 1 from their OC and cannot use the Heroic Intervention ability.

Killing Precision

Until the end of the turn, this model's melee attacks gain the [PRECISION] keyword. Each time this model destroys a Character model, it immediately makes 2 additional attacks.

Sire of the Night Lords [AURA]

While a friendly Night Lords Infantry unit is within 6", enemy units within 12" must subtract 1 from their Leadership. In the first Battle Round, Night Lords units can hold Objectives even while Battle-shocked.

Night Hunter

This model has the Fights First, Lone Operative, and Stealth abilities at all times.

Terror Incarnate [AURA]

While any enemy unit is within 6" of this model, subtract 1 from the Leadership and OC characteristics of models in that unit.
