ABILITIES

Flare Shield

This model has a 5+ invulnerable save. Each time an attack is allocated to this model and the attacking model is more than 18" away, that attack has -1 to the Wound roll.

Doctrina Imperatives

This model gains the effect of the chosen Doctrina Imperative each Command phase (Conqueror: Hit roll of 6 scores an additional Hit; Protector: enemy Hit rolls suffer -1). See faction ability card.

Iron Discipline

This unit automatically passes Battle-shock tests.

Deadly Demise D3

When this model is destroyed, roll one D6 before removing it; on a 6 each unit within 6" suffers D3 mortal wounds.

Designer's Note

Homebrew — HH3e → 10e Conversion. HH3e Krios Battle Tank. Standard Mechanicum MBT — anchored on Predator / Onager Dunecrawler tier (T10 W11 Sv2+). Lightning cannon profile uses Sustained Hits 2 to capture the canonical HH3e Krios "many hits per shot" feel.
