ABILITIES

Primarch of the First

At the start of your Command phase, select two Primarch of the First abilities. Until the start of your next Command phase, this model has those abilities.

The Lion's Choler

This model has the Fights First ability. If this model has 5 or fewer wounds remaining, add 2 to its Focus rolls and ignore penalties from lost wounds.

Master of Darkness

In your Command phase, if not within Engagement Range of any enemy units, remove this model and place it into Strategic Reserves.

Watcher's Vigil [AURA]

While a friendly Dark Angels unit is within 6", each time a model makes a melee attack, re-roll a hit roll of 1 and a wound roll of 1.

Sire of the Dark Angels [AURA]

While a friendly Dark Angels Infantry unit is within 6", add 1 to its OC and re-roll Reserve Rolls for Dark Angels Outrider and Jetbike units. In the first Battle Round, Dark Angels units can hold Objectives even while Battle-shocked.

Stasis Field

The first time an enemy unit ends a Charge move within Engagement Range of this model, until the end of that Assault phase, subtract 2 from the Attacks characteristic of models in that charging unit.

The Angels of Death

Each time a negative modifier would reduce this model's Leadership below 6, treat it as 6 instead. This model can never be affected by Fear by more than -1 to its characteristics.
