

# PATH OF THE OUTCAST

## THE LONG WATCH OF THE PATHFINDER

AELDARI • ASURYANI • OUTCASTS

*"The Path of the Outcast is the longest of paths, and the loneliest. Most who walk it never return. Those who do, return with eyes that see further than any seer's." — Illic Nightspear, Pathfinder Lord of Alaitoc. The Outcasts who tread the Outer Paths — Rangers, Pathfinders, and the rare wanderer-warriors who have spent decades in the void between Craftworlds — bring back skills that no Aspect Shrine can teach: patience past mortal measure, and the art of the perfect, unwitnessed kill.*

### FACTION ABILITY — BATTLE FOCUS

Uses the canonical Aeldari faction ability **Battle Focus** from Codex: Aeldari (10e). If an **AELDARI** unit from your army Advanced this turn, its ranged weapons gain the [ASSAULT] ability for the turn (where they did not have it already).

### DETACHMENT RULE — WATCHFUL EXILE

#### Watchful Exile

*The Outcast learns stillness before all other arts. A Pathfinder who does not move is not there.*

While a friendly **Aeldari** Infantry unit Remained Stationary in its previous Movement phase (or has not yet moved this battle), its ranged weapons gain the [LETHAL HITS] ability, and the unit benefits from the **Stealth** ability (subtract 1 from Hit rolls of ranged attacks targeting it).

In addition, friendly **Rangers** units in this Detachment can choose, in your Command phase, to swap their long rifles' AP from **-1** to **-2** for that battle round. This swap may be made once per Rangers unit per battle.

### DETACHMENT COMPOSITION

✓ **Included:** All canonical **Aeldari (Asuryani)** units — Craftworld Aeldari datasheets in current Codex: Aeldari (10e/11e). Phoenix Lords, Autarchs, Avatar of Khaine, Aspect Warriors, Guardians, Rangers, Vyper/Vehicle datasheets, all of it.

✗ **Excluded:** **Drukhari**, **Harlequins**, **Ynnari**, and **Corsair** warband detachments — this Detachment is Asuryani-focused. Pathfinder identity is Asuryani lore; a Drukhari Outcast walks a different path.

✓ **Required:** At least one **Rangers** unit must be in your army to use this Detachment. The Path's flavour collapses without its Outcast core.

### ENHANCEMENTS

#### Voidbringer's Mantle 25 pts

*An ancient cloak woven from monomolecular thread, given to the most patient of Outcast hunters. The wearer carries a hand-wrought long rifle older than most Craftworlds.*

Bearer's long rifle (if equipped) becomes: **Range 48"**, **A1**, **BS 2+**, **S5**, **AP -3**, **D D3**, [PRECISION, LETHAL HITS, HEAVY]. Bearer also gains the **Lone Operative** ability while not within 6" of any other friendly model. (*Aeldari Character only.*)

#### Master of the Outcast Path 20 pts

*The bearer has walked the Path of the Outcast and returned twice over, mastering the shadow's stillness and the predator's silence.*

Bearer's unit gains the **Stealth** ability. While the bearer is on the battlefield, the first failed Battle-shock test taken by a friendly **Aeldari** unit each battle round is automatically passed instead. *(Aeldari Character only.)*

### Hidden Eye 15 pts

*The bearer's auspex is older than any in current production — tuned to the patterns of cover the prey thinks it knows.*

Enemy units within 18" of the bearer cannot benefit from the **Benefit of Cover** against attacks made by friendly **Aeldari** Infantry units in your army. *(Aeldari Character only.)*

### Whispering Stone 15 pts

*A Spirit Stone shaped to remember the song of the Long Path. Its bearer slips between sentries that should have heard him.*

Bearer's unit can perform a **Scouts 9"** move (instead of any lesser Scout move it might otherwise have). If the bearer's unit already has Scouts X", increase X by 3". *(Aeldari Character only.)*

## STRATAGEMS

### Stillness of the Hunter 1 CP

*Path of the Outcast — Battle Tactic Stratagem*

*A breath held becomes a shot taken without echo.*

**WHEN:** Your Shooting phase, just after a friendly Aeldari Infantry unit is selected to shoot.

**TARGET:** That Aeldari Infantry unit, if it Remained Stationary in its previous Movement phase.

**EFFECT:** Until the end of the phase, each weapon in the unit shoots one additional time (a weapon with A1 fires twice; a weapon with A D3 fires twice with D3 shots each).

### From the Shadow Path 1 CP

*Path of the Outcast — Strategic Ploy Stratagem*

*The Outcast was never in the position the foe assumed.*

**WHEN:** Start of your opponent's turn, before any models are moved.

**TARGET:** One friendly Aeldari Infantry unit with the **Infiltrators** or **Scouts** ability that is not within Engagement Range of any enemy unit.

**EFFECT:** Remove that unit from the battlefield and place it in Strategic Reserves. It may arrive from Reserves any turn from the next turn onward (per normal Reserves rules).

### Voidbringer's Mark 1 CP

*Path of the Outcast — Battle Tactic Stratagem*

*The single shot. The single wound. The single name removed from the foe's order of battle.*

**WHEN:** Your Shooting phase, just after a friendly Aeldari Infantry unit's ranged attack with the [PRECISION] or [SNIPER] ability scores a Critical Hit.

**TARGET:** That attack.

**EFFECT:** That attack gains the [DEVASTATING WOUNDS] ability. If the target is an enemy **Character** model, the attack inflicts an additional D3 Mortal Wounds on a Wound roll of 6.

### Unseen Withdrawal 2 CP

*Path of the Outcast — Strategic Ploy Stratagem*

*The Outcast slips the noose, fires once more, and is gone before the second arrow is nocked.*

**WHEN:** Your Movement phase, when a friendly Aeldari Infantry unit Falls Back.

**TARGET:** That Aeldari Infantry unit.

**EFFECT:** The unit can shoot and declare a Charge in its turn even though it Fell Back, as if it had not Fallen Back.

### Concealed Vantage 1 CP

*Path of the Outcast — Battle Tactic Stratagem*

*Every fold of terrain is a sworn friend to the Outcast.*

**WHEN:** Start of your opponent's Shooting phase.

**TARGET:** One friendly Aeldari Infantry unit that is within 3" of any terrain feature.

**EFFECT:** Until the end of the phase, ranged attacks targeting that unit suffer -1 to the Hit roll, and the unit cannot lose Objective Control from being below Starting Strength.

### The Long Path's Wisdom 1 CP

*Path of the Outcast — Epic Deed Stratagem*

*The Outcast has died many times on the Long Path. One death more is not yet today's.*

**WHEN:** End of any phase in which a friendly Aeldari unit lost one or more models earlier this phase.

**TARGET:** That Aeldari unit.

**EFFECT:** Return one destroyed model to that unit, set up within Unit Coherency and not within Engagement Range of any enemy unit, with 1 wound remaining. Alternatively, instead of returning a model, a friendly Aeldari Character within 12" regains D3 lost wounds. Each option may be used once per battle.

### DESIGNER'S NOTE

**Homebrew — 7th Ed lineage (Codex: Eldar Craftworlds, 2015).** Pathfinders were a distinct unit/upgrade across 4th-7th Ed but were folded into the canonical Rangers datasheet in 8th Ed onward. The unit identity is fundamentally a fluff variant of the Rangers kit (same models, painted differently). Per project miniature-first policy, the Pathfinder identity is best served by this Detachment rule rather than a standalone homebrew datacard. *Watchful Exile* recreates the 7th Ed Pathfinder upgrade's effect (better AP + Lethal Hits + improved cover) at-cost as a free Detachment buff that triggers on a tactical condition (Remained Stationary). The four Enhancements scale from cheap (15 pts) to premium (25 pts) for flexible Warlord-building. The six Stratagems span standard 10e Battle Tactic / Strategic Ploy / Epic Deed categories and emphasise patience, concealment, and the surgical removal of named enemies.

*Replaces the retired `pathfinders_v2_card.html` standalone datacard.*
