The Mace of Saint Praxedes is the holiest of relics — said to have crushed the skulls of three Hive Tyrants during the defence of Ophelia VII. In current 10e Sororitas codex, it survives as an Enhancement that any Canoness may bear, but Praxedes herself wields it best.

ABILITIES

Core

Lone Operative, Fly, Deep Strike, Fights First.

Faction

Acts of Faith, Sacred Rites.

Saint of Ophelia VII [AURA]

While a friendly **Adepta Sororitas** unit is within 6" of this model, that unit can re-roll Battle-shock tests, gains Feel No Pain 6+, and adds 1 to its Hymn rolls (improves from 4+ to 3+).

Living Saint

When this model is destroyed, do not remove it from play. Roll one D6 at the start of your next Command phase: on a 4+, set this model back up on the battlefield as close as possible to where it was destroyed and not within Engagement Range of enemies, with full Wounds. If it cannot be set up, it is removed permanently. This model can be returned to the battlefield up to **twice per battle**.

Martyrdom of the Mace

Each time this model fights, before resolving its attacks, you can declare a Martyrdom: this model's Mace of Saint Praxedes attacks are made with WS 1+ and gain [SUSTAINED HITS 2] this fight, but at the end of the Fight phase this model loses D3 wounds (this damage cannot be reduced or prevented). The Saint hurls herself into battle with no thought of survival.

Halo of the Emperor

Each time this model is targeted by a Psychic attack, you can roll one D6: on a 4+, that attack is ignored. This model also adds 1 to Battle-shock tests it triggers in enemy units within 12".

Designer's Note

Homebrew — 8th Ed source. Saint Praxedes of Ophelia VII was a Canoness of the Order of Our Martyred Lady who ascended to Sainthood during the Second Tyrannic War. She had a brief 8th Ed datasheet (free Warhammer Community PDF promo, 2019). In current 10e the canonical **Saint Celestine** datasheet covers the Living Saint role, and the **Mace of Saint Praxedes** survives as an Enhancement Relic in the 10e Sororitas codex — but Praxedes herself is no longer a datasheet. This 10e homebrew preserves her as a slightly less-powerful Living Saint than Celestine: M12" Fly, T4/Sv3+/W6/4++, the iconic Mace (S7 AP-2 D2 Devastating

Wounds), Resurrection up to 2× per battle, Saint of Ophelia VII aura buffing nearby Sororitas, and the Martyrdom of the Mace ability for an all-in attack at WS1+ Sustained Hits 2 at the cost of self-damage.
