

SEER COUNCIL

THE CONCORDANCE OF RUNES

AELDARI • ASURYANI • PSYKER COUNCIL

A Farseer rarely walks alone. When the visions sharpen and a thread of fate must be cut, she summons her sworn Warlocks — a circle of lesser seers who weave their lesser sights into the lattice of her greater one. Around them march the Guardians of her shrine, drawn from the very forge-halls where she casts her runes. They are not many, but each step they take has already been seen, and the foe's death already chosen.

FACTION ABILITY — BATTLE FOCUS

The Aeldari fight as quicksilver — their advance and their fire are one motion.

Each time an **Aeldari** unit from your army Advances, until the end of the turn ranged weapons equipped by models in that unit have the [ASSAULT] ability.

DETACHMENT RULE — COUNCIL OF SEERS

Runic Concord

At the start of your Command phase, select one of the three Runes below. Until the start of your next Command phase, friendly **Aeldari Psyker** units AND any friendly unit they are leading benefit from the chosen Rune's effect. **You cannot select the same Rune two battle rounds in a row.**

- ◆ **Rune of Witnessing** — Ranged weapons equipped by affected models have the [SUSTAINED HITS 1] ability.
- ◆ **Rune of Shielding** — Affected models have a 5+ Feel No Pain against Mortal Wounds, and a 6+ Feel No Pain against all other Damage.
- ◆ **Rune of Foretelling** — Re-roll Advance, Charge, and Battle-shock rolls for affected units.

ENHANCEMENTS

Your **Farseer** model is your Warlord and has the **Eldritch Storm** Enhancement. You can replace this with **Runic Mastery**.

DEFAULT ENHANCEMENT

Eldritch Storm

The bearer calls down a tempest of psychic lightning, lashing the foe with the very fabric of the warp.

Once per battle, in your Shooting phase, the bearer can manifest the Eldritch Storm. Select one enemy unit within 18" visible to the bearer and roll one D6: on a **2-3** the unit suffers **D3** Mortal Wounds; on a **4-5** it suffers **D6** Mortal Wounds; on a **6** it suffers **2D6** Mortal Wounds.

— OR —

OPTIONAL ENHANCEMENT

Runic Mastery

The bearer has cast the runes so many times that she may hold two threads of fate at once.

At the start of your Command phase, when selecting a Rune via the detachment rule, you may select **two different Runes** instead of one. Both are active until the start of your next Command phase. *(The same-Rune-twice-in-a-row restriction still applies to each Rune individually.)*

SECONDARY OBJECTIVES

You will use the **Council's Verdict** secondary objective. You can replace this with **Path of the Future**.

DEFAULT SECONDARY OBJECTIVE

Council's Verdict

Those marked by the Seer Council do not survive the day.

At the end of each phase, you score **3VP** if a friendly **Aeldari Psyker** unit (or a unit it is leading) destroyed one or more enemy units that phase. You score an additional **2VP** if any of the destroyed units were **Characters** or **Psykers**.

— O R —

OPTIONAL SECONDARY OBJECTIVE

Path of the Future

The Council preserves itself, for there is no future without the Seers.

At the end of each Command phase from the second battle round onward, you score **3VP** if more friendly units include or are led by an **Aeldari Psyker** model than do not.

STRATAGEMS

Doom of the Foretellers 1 CP

Council of Seers — Battle Tactic Stratagem

The Seers' chant rises, and the foe's flesh remembers the wounds it has not yet taken.

WHEN: Your Shooting phase or Fight phase, just after a friendly **Aeldari Psyker** unit (or a unit it is leading) has been selected to shoot or fight.

TARGET: That unit.

EFFECT: Until the end of the phase, attacks made by models in your unit have the [LETHAL HITS] ability. If the unit is the **Warlock Conclave** or contains a **Farseer**, attacks made with Psychic weapons also have an Armour Penetration characteristic improved by 1.

Foreseen Strike 1 CP

Council of Seers — Strategic Ploy Stratagem

The Farseer's gaze flickers, and the blow you never threw has already missed.

WHEN: Your opponent's Shooting phase or Fight phase, just after an enemy unit has selected its targets.

TARGET: One friendly **Aeldari** unit within 6" of a friendly **Aeldari Psyker** unit, that was selected as a target of one or more of the enemy unit's attacks.

EFFECT: Until the end of the phase, attacks targeting your unit suffer -1 to the **Wound roll**, and your unit has the **Stealth** ability.

Eldritch Counsel 2 CP

Council of Seers — Epic Deed Stratagem

The lesser seers join their sight to the Farseer's, and for one battle round the lattice of fate becomes the foe's prison.

WHEN: Start of any battle round.

TARGET: Your army.

EFFECT: Select a second Rune (different from the one selected this turn) to ALSO be active for friendly **Aeldari Psyker** units (and units they are leading) until the start of your next Command phase. Use this Stratagem only once per battle.

DESIGNER'S NOTE

The Seer Council was an HQ choice or formation across multiple older editions (most prominently in 3rd / 5th Ed Codex: Eldar where a Farseer could be joined by a Warlock retinue, and in 7th Ed Apocalypse where it was a full formation). In 10th Edition the Farseer and Warlock Conclave are separate canonical datasheets — this Combat Patrol restores the classic concept as a detachment, with the Farseer leading the Warlock Conclave. Every unit in the army list is a current 10e canonical datasheet; the detachment rule, enhancements, secondaries, and stratagems are entirely homebrew. The CP is Asuryani-generic (not craftworld-locked) and complements the five craftworld-specific Eldar CPs by focusing on the Seer archetype itself.
