HOMEBREW — ORIGINAL DETACHMENT

POINTS

SONS OF TALLARN

DESERT RAIDERS STRIKE FORCE

ASTRA MILITARUM • TALLARN • IMPERIUM

Tallarn is sand under a dying star. Her sons do not hold ground — they take ground, leave it bleeding, and ride away into the dunes before the foe has finished dying. Veteran riflemen with hunting-lance cavalry on their flanks, every Tallarn patrol moves to the same iron rhythm: outflank, strike, ride on, strike again.

FACTION ABILITY — VOICE OF COMMAND

Captain Al'Rahem leads from the saddle, and his Tallarn officers learned at his stirrup.

At the start of your Command phase, each friendly **Officer** model can issue Orders to **Regiment** units within 6". A unit can only benefit from one Order at a time. Battle-shocked units cannot receive Orders. Captain Al'Rahem can issue Orders *in your Movement phase* instead of your Command phase (see Like the Wind! ability).

DETACHMENT RULE — SONS OF TALLARN

Like the Wind

Each time a friendly **Tallarn Infantry** or **Tallarn Mounted** unit **Advances**, until the end of the turn ranged weapons equipped by models in that unit have the **[ASSAULT]** ability AND re-roll Hit rolls of 1. In addition, while a friendly **Tallarn Infantry** unit is more than 12" from the closest enemy unit, that unit has the **Stealth** ability (desert camo + ghutra cloaks make every silhouette wrong against dune lines).

ENHANCEMENTS

Your **Captain Al'Rahem** model is your Warlord and has the **Sand-Cloak** Enhancement. You can replace this with **Desert Khan**.

DEFAULT ENHANCEMENT

Sand-Cloak

Woven from the silks of a hundred raids and dyed with Tallarni indigo, the cloak shrugs off desert sun, plasma fire, and bolter rounds alike.

The bearer (and the unit they are leading) have the **Stealth** ability AND a **6+ Feel No Pain** against all attacks.

— OR —

OPTIONAL ENHANCEMENT

Desert Khan

The bearer speaks the desert's dialect of command — every Tallarn pickets her, every Rough Rider answers her.

In your Command phase, the bearer can issue **one additional Order** beyond their normal limit. Orders issued by the bearer can target Tallarn Mounted units (e.g. Rough Riders) as if they were Infantry.

SECONDARY OBJECTIVES

You will use the **Strike from the Sands** secondary objective. You can replace this with **Hold the Oasis**.

DEFAULT SECONDARY OBJECTIVE

Strike from the Sands

The desert kills who it pleases — and the Tallarni decide who.

At the end of each phase, you score **3VP** if a friendly **Tallarn** unit that **Advanced this turn OR arrived from Strategic Reserves this turn** destroyed one or more enemy units that phase. Maximum 12VP per battle.

— O R —

OPTIONAL SECONDARY OBJECTIVE

Hold the Oasis

One sip of clean water buys a man's loyalty for a campaign. Two sips buys his life.

At the end of each player's turn from the second battle round onward, you score **2VP** for each objective marker you control with at least one friendly **Tallarn Infantry** unit wholly within range. Maximum 12VP per battle.

STRATAGEMS

Sandstorm Veil 1 CP

Sons of Tallarn — Strategic Ploy Stratagem

The dunes lift, and for a moment even the foe's auspex sees nothing but ochre rain.

WHEN: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

TARGET: One friendly **Tallarn** unit selected as a target.

EFFECT: Until the end of the phase, attacks targeting your unit suffer **-1 to the Wound roll** and your unit has the **Stealth** ability.

Reposition the Outflank 1 CP

Sons of Tallarn — Strategic Ploy Stratagem

The Tallarni do not arrive where you expect them — they arrive where you are.

WHEN: Your Movement phase, when a friendly unit arrives from Strategic Reserves.

TARGET: That unit.

EFFECT: That unit can be set up anywhere on the battlefield more than **6"** from any enemy units (instead of the standard 9"). If the unit contains 5 or fewer models, it can also Charge in the same turn it arrived (the Charge roll is unmodified).

Lance Charge 1 CP

Sons of Tallarn — Battle Tactic Stratagem

One ride, one lance, one wound the foe will not heal.

WHEN: The Fight phase, just after a friendly **Imperial Guard Rough Riders** unit has been selected to fight.

TARGET: That Rough Riders unit.

EFFECT: Until the end of the phase, hunting lance attacks made by models in your unit have +1 to the Damage characteristic. (Combined with the unit's Cavalry Charge, this means hunting lances deal D3 Damage on charge.)

DESIGNER'S NOTE — Tallarn Desert Raiders were one of Imperial Guard's most distinct regiments across 3rd-7th Ed Codex: Imperial Guard / Astra Militarum, defined by the "fire-and-fade" outflanking style. In 10e they have no faction-specific units — Tallarn flavour lives in the lore but the canonical infantry datasheets are all Cadian. **RESTRUCTURED 2026-05-17** to use the homebrew **INFANTRY PLATOON** datasheet, then **UPDATED 2026-05-18** to v3 (infantry_platoon_v3_card.html): Captain Al'Rahem occupies the PCS Officer slot directly (v3 collapses v2's Pattern A/B into a single rule — the Officer slot holds either the generic Castellan or a named Character, never both). The old "Veteran Guardsmen + Heavy Weapons Squad" two-line composition collapses into the Platoon's PCS + Infantry Squad + Heavy Weapons Squad sub-squads as one unit. The Platoon datasheet drops the 10e Legends Veteran Guardsmen dependency (which may not survive into 11e). Detachment stays **SONS OF TALLARN** (NOT Mechanised Strike Force) — Tallarn's flavour is desert mobility and outflank, not Chimera columns. Captain Al'Rahem is a 7th Ed homebrew character (see captain_alrahem_v2_card.html). Imperial Guard Rough Riders are a homebrew datasheet distinct from canonical Attilan Rough Riders Legends. Sentinel and Leman Russ datasheets are canonical 10e. Points dropped from ~590 (v2, per-weapon modular pricing) to ~545 (v3, flat 10e per-unit pricing — weapon menus are free, only the Officer choice and sub-squad slots are priced). Paint scheme: desert tan + indigo cloaks + sage green webbing.
