ABILITIES

Faction — Sons of the Legions

Generic Legiones Astartes (HH) datasheet usable by any of the 18 Legions. Treats as **Oath of Moment** (Loyalist) or **Dark Pact** (Traitor) for 40K interop.

Core

Deadly Demise D3, Smoke.

Transport

This model has a Transport capacity of 10 Legiones Astartes models. Cataphractii/Tartaros Terminators count as 2 each.

Subterranean Assault

This model must begin the battle in Strategic Reserves. It arrives via "burrowing" Deep Strike at the end of any of your Movement phases on or after turn 2, anywhere on the battlefield more than 6" from enemy models. Embarked units may disembark within 3" and are eligible to declare a Charge.

Drill-Head Ramming

On a turn in which this model arrived via Subterranean Assault, it can target one enemy **Vehicle, Monster, or Fortification** unit within 3" of its arrival point. Roll one D6: on a 3+, that target suffers D3+3 mortal wounds.

DESIGNER'S NOTE — *Termite is the Heresy's burrowing transport — a drilling assault carrier that emerges from the ground mid-table. The unique angle is that it deploys from turn 2 onward (not turn 1), and gets only a 6" enemy-separation buffer (vs the standard 9"). HB: T9/Sv3+/W11 + Subterranean Assault (6" buffer Deep Strike from turn 2) + Drill-Head Ramming (D3+3 mortal wounds to a nearby Vehicle/Monster/Fortification on arrival) + drill head melee for follow-up turns. 165 pts.*
