

THE EIGHT

MONT'KA MADE MANIFEST

T'AU EMPIRE • FARSIGHT ENCLAVES • THE EIGHT

They came together as exiles — eight Crisis Commanders bound to a single heretic prince beyond the borders of the Empire. Where one of them strikes, all eight strike. Where one falters, seven cover. Astartes captains have called them the most lethal close-arms formation in the galaxy; a Hive Tyrant has counted them — and died counting. The Eight do not fight as a squad. They fight as a single will, eight bodies, eight guns, and one short blade burning at the centre.

FACTION ABILITY — FOR THE GREATER GOOD

The unity that binds the T'au is more than philosophy — it is a battle doctrine made manifest in coordinated fire.

Once per turn, when an enemy unit is selected as the target of an attack by a friendly **T'au Empire** unit from your army, until the end of the phase, each time a friendly **T'au Empire** unit makes an attack against that target, re-roll a Hit roll of 1.

DETACHMENT RULE — BOND OF EIGHT

The Eight Strike as One

The Eight gain escalating benefits while their fellowship remains intact:

- ◆ **≥ 4 models remain in the unit** — Ranged attacks made by The Eight gain the [LETHAL HITS] ability.
- ◆ **≥ 6 models remain in the unit** — Melee attacks made by The Eight gain the [LETHAL HITS] ability.
- ◆ **All 8 models still in the unit** — Re-roll Wound rolls of 1 for all attacks made by The Eight against **Monster** or **Vehicle** units.

ENHANCEMENTS

Your **Commander Farsight** model is your Warlord and has the **Mont'ka Ascendant** Enhancement. You can replace this with **Kauyon Patience**.

DEFAULT ENHANCEMENT

Mont'ka Ascendant

The hunting blow. When Farsight calls Mont'ka, every blade in the Eight falls at once.

Once per battle, at the start of any of your phases, the bearer may call Mont'ka. Until the end of that phase, each model in the bearer's unit can re-roll **both** Hit and Wound rolls of 1, AND attacks made by the unit gain the [DEVASTATING WOUNDS] ability against **Character** targets.

— OR —

OPTIONAL ENHANCEMENT

Kauyon Patience

The patient hunter. The Eight may wait. They may always wait.

If the bearer's unit Remained Stationary in your first Movement phase, for the rest of the battle, ranged attacks made by the bearer's unit have an **Armour Penetration characteristic improved by 1**.

SECONDARY OBJECTIVES

You will use the **The Eight Mark Their Quarry** secondary objective. You can replace this with **Anchor the Mont'ka Field**.

DEFAULT SECONDARY OBJECTIVE

The Eight Mark Their Quarry

What the Eight marks, the Eight kills.

At the start of each of your Command phases from the second battle round onward, you may select one enemy **Character** or **Monster** or **Vehicle** unit on the battlefield as your quarry. If that unit is destroyed by an attack made by The Eight before the end of your next turn, you score **4VP**. You can select a new quarry each turn.

— O R —

OPTIONAL SECONDARY OBJECTIVE

Anchor the Mont'ka Field

The Eight project a field of fire so total that none who cross it return.

At the end of each of your turns, you score **3VP** if The Eight is wholly within your opponent's deployment zone, or **2VP** if it is wholly within No Man's Land.

STRATAGEMS

Bonded Strike 1 CP

Bond of Eight — Battle Tactic Stratagem
One signal, one target, eight guns answer.

WHEN: Your Shooting phase, just after **The Eight** has been selected to shoot.
TARGET: One enemy unit visible to one or more models in The Eight.
EFFECT: Until the end of the phase, attacks made by The Eight against that target re-roll both Hit and Wound rolls.

Drone Sacrifice 1 CP

Bond of Eight — Strategic Ploy Stratagem
O'Vesa's drones spin into the path of the killing blow.

WHEN: Your opponent's Shooting phase or Fight phase, just after an attack against **The Eight** has been allocated.
TARGET: The Eight.
EFFECT: Roll one D6. On a 2+, that attack is ignored (it has no effect on the unit). On a 1, the attack resolves as normal.

Coordinated Annihilation 2 CP

Bond of Eight — Epic Deed Stratagem
Eight Commanders, eight fire-channels, one perfect annihilation.

WHEN: Your Shooting phase, just after **The Eight** has been selected to shoot.
TARGET: The Eight.
EFFECT: Until the end of the phase, the Number of Attacks characteristic of all ranged weapons equipped by models in The Eight is **doubled**. Use this Stratagem only once per battle.

ARMY LIST

UNIT	PTS
A — The Eight [Warlord: Farsight] <i>All 8 Commanders deploying as a single bonded unit — Farsight, Brightsword, Bravestorm, Arra'kon, Torchstar, Sha'vastos, Ob'lotai 9-0, O'Vesa</i>	500
Total	500 pts

DESIGNER'S NOTE — *The Eight peaked as a unit in the 7th/8th Edition Farsight Enclaves codex, where they fought as a single Lord-of-War formation: eight named XV8 Commanders sharing a wargear list and a unified mission. They were dropped to Legends in 10th Edition with no*

replacement. This Combat Patrol restores them as a single 8-model bonded unit at 500 pts — rebalanced significantly from their full-standalone cost (which would total ~1045 pts). The Bond of Eight detachment rule escalates the unit's lethality as long as casualties stay light, capturing the lore principle that the team is more than the sum of its parts. Individual Commander cards exist as separate Epic Hero datasheets for use at full points in normal play.

Core: Deep Strike. **Faction:** For the Greater Good.

Bond of Eight (Unit Rule): See Detachment Rule above — this unit gains escalating bonuses based on remaining model count.

Master of the Eight (Aura, while Farsight is in the unit): While the unit contains Farsight, attacks made by the unit gain the [SUSTAINED HITS 1] ability, and the unit has [FIGHTS FIRST].

Way of the Short Blade (Farsight): On a turn the unit made a Charge move, attacks with the **Dawn Blade** gain +1 Strength and trigger [DEVASTATING WOUNDS] on Wound rolls of 5+.

Sword-Saint Surge (Brightsword): The unit can Advance and still charge that turn.

Iridium Armour (Bravestorm): Damage allocated to Bravestorm is reduced to a max of 3. Bravestorm has Feel No Pain 6+.

Coordinated Fire (Arra'kon — Aura): At the start of your Shooting phase, select one friendly **T'au Empire** unit within 9" of Arra'kon. Until end of phase, that unit re-rolls Hit rolls of 1.

Burning Vengeance (Torchstar): Each ranged attack with a Flamer weapon — on an unmodified Wound roll of 6, inflict 1 mortal wound in addition.

Drone Master (Sha'vastos): In your Shooting phase, before the unit shoots, you may place 1 additional Markerlight token on an enemy unit within 36" visible to Sha'vastos.

AI-Driven / Static Gun Platform (Ob'lotai 9-0): If the unit Remained Stationary, attacks made by Ob'lotai's weapons gain +1 to Hit.

Shield Drone Network (O'Vesa): Attacks targeting this unit suffer -1 to the Wound roll while O'Vesa is in the unit.

Coherency: Whilst this unit contains multiple models with differing Toughness or Wounds characteristics, attacks must be allocated to the closest model unless a Shield Drone effect intervenes.
