

THE HOUR OF MANIFESTATION

THE SPECTRAL ASTARTES WALK AMONG US

ADEPTUS ASTARTES • LEGION OF THE DAMNED • IMPERIUM

Sergeant Centurius walks at the head of his squad as he has for a thousand standard years. The skull-relic in his off-hand hums faint white, and the bone-marked Astartes who follow him are not breathing — they are the spectral hand of the Emperor's vengeance, made flesh in the moment of greatest need. This patrol is the foe's last sight before the dark.

FACTION ABILITY — OATH OF MOMENT

The Damned bear no chapter oath save the oath of the moment of their summoning.

At the start of your first Command phase, select one enemy unit. Until that unit is destroyed (or until the end of the battle), each time a model in your army makes an attack against that unit, you can re-roll a Hit roll of 1, and re-roll a Wound roll of 1.

DETACHMENT RULE — PHANTASMAL ASTARTES

Phantasmal Astartes

Friendly **Legion of the Damned Infantry** units have the **[FEEL NO PAIN 5+]** ability against all attacks. All other friendly **Legion of the Damned** units (Vehicles, Walkers, Mounted) have the **[FEEL NO PAIN 6+]** ability against all attacks. In addition, each time a friendly Legion of the Damned unit makes an attack against an enemy unit that destroyed any friendly **Legion of the Damned Infantry** model earlier this battle, that attack has the **[DEVASTATING WOUNDS]** ability.

Every unit in this army is Legion of the Damned. The chapter has manifested its host wholesale, bearing the arms of its members in life — the Tactical Squad, Razorback, and Drop Pod all bear the LEGION OF THE DAMNED keyword and benefit from this rule.

For the full Codex-style detachment (4 enhancements + 6 stratagems + composition rules + the Litany of the Damned Librarian power), see [Legion_of_the_damned_detachment_card.html](#). This Combat Patrol uses a curated subset.

ENHANCEMENTS

Your **Sergeant Centurius** model is your Warlord and has the **Sacred Flame** Enhancement. You can replace this with **Phantasmal Reach**.

DEFAULT ENHANCEMENT

Sacred Flame

The bearer's weapons crackle with white spectral fire that has no fuel save the foe's screams.

Weapons equipped by the bearer have the **[DEVASTATING WOUNDS]** ability. The bearer also has a **5+ Feel No Pain** against Mortal Wounds.

— OR —

OPTIONAL ENHANCEMENT

Phantasmal Reach

The bearer arrives where the Emperor wills, not where the cartographer permits.

During deployment, place the bearer (and the unit they are leading) in Strategic Reserves. From battle round 1, the unit can arrive: set

up wholly within 6" of any battlefield edge OR wholly within 6" of a friendly **Damned Legionnaires** unit on the battlefield, and more than 3" from any enemy unit (instead of the standard 9").

SECONDARY OBJECTIVES

You will use the **Vengeance of the Fallen** secondary objective. You can replace this with **Unbidden Strike**.

DEFAULT SECONDARY OBJECTIVE

Vengeance of the Fallen

The Damned do not forget. They reckon with their killers.

At the end of each phase, you score **3VP** if a friendly Legion of the Damned unit destroyed one or more enemy units that previously destroyed a friendly **Damned Legionnaires** model this battle. Score an additional **2VP** if Sergeant Centurius personally made the killing blow. Maximum 12VP per battle.

— O R —

OPTIONAL SECONDARY OBJECTIVE

Unbidden Strike

The Damned arrive at the hour of greatest need. That hour is now.

At the end of battle rounds 1 and 2 only, you score **4VP** if a friendly Legion of the Damned unit that arrived from Strategic Reserves this turn destroyed one or more enemy units this turn. Maximum 8VP per battle (4VP each in turns 1 and 2). Reflects the spectral chapter's pattern of striking decisively then fading.

STRATAGEMS

Damnation's Call 1 CP

Legion of the Damned — Battle Tactic Stratagem
The Damned mark a target; their bolters answer with witch-fire.

WHEN: Your Shooting phase, just after a friendly **Legion of the Damned** unit has been selected to shoot.
TARGET: That unit.
EFFECT: Until the end of the phase, attacks made by bolt weapons in this unit have **+1 to the Wound roll** AND ignore the Benefit of Cover.

Phantasmal Return 2 CP

Legion of the Damned — Strategic Ploy Stratagem
The Damned do not die. They depart. They return when the bell next rings.
WHEN: End of any phase, if a friendly **Legion of the Damned Infantry** unit has been completely destroyed earlier this phase.
TARGET: That destroyed Infantry unit.
EFFECT: Add a new unit of the same datasheet at the same starting strength to your Strategic Reserves. It can arrive from your next Movement phase onward, per standard Strategic Reserves rules. Use this Stratagem only once per battle.

Unbidden Manifestation 2 CP

Legion of the Damned — Strategic Ploy Stratagem
The Damned appear without warning at the moment of greatest need.
WHEN: Start of any battle round from battle round 2 onward.
TARGET: One friendly **Legion of the Damned** unit in Strategic Reserves.
EFFECT: That unit arrives this battle round and is set up wholly within 6" of any friendly Legion of the Damned unit already on the battlefield, more than 6" from any enemy unit. Use this Stratagem only once per battle.

DESIGNER'S NOTE — This Combat Patrol mirrors the **ASTRAL CLAWS CP** pattern (Lufgt Huron + Terminators + Tactical + Razorback) by using all-Firstborn datasheets. Per user direction: pre-Primaris Astartes only. The army list is built around **SERGEANT CENTURIUS** (HB, [sergeant_centurius_v2_card.html](#)) leading **DAMNED LEGIONNAIRES** (canonical 10e Imperium Agents) — the iconic Legion of the Damned pairing. **ALL FIVE UNITS IN THIS ARMY ARE LEGION OF THE DAMNED** — the chapter manifests its host wholesale (CSM/Farsight model), including the Damned Tactical Squad (canonical 10e Legends Firstborn, FNP 5+ Infantry tier), the Damned Razorback (FNP 6+ Vehicle tier), and the Damned Drop Pod (FNP 6+ Vehicle tier). The Sacred Flame enhancement makes Centurius's plasma pistol and damned power weapon both [DEVASTATING WOUNDS]; the Animus Malorum mechanic feeds itself across the battle as enemy kills near Centurius generate Soul counters to resurrect Damned Legionnaires (especially synergetic with the Phantasmal Return stratagem — which now also returns the Damned Tactical Squad if destroyed). For the full Codex-style detachment, see [Legion_of_the_damned_detachment_card.html](#) — the CP's rules are a curated 3-stratagem / 2-enhancement subset. The full detachment also includes the **LITANY OF THE DAMNED** Librarian psychic ability (no Librarian in this CP).
