Vehicle Transport

This model has a unique Transport capacity: it can carry ONE friendly Legiones Astartes Vehicle of size up to Land Raider (including any Land Raider variant, Spartan, Kratos, Sicaran [Legends], Predator, Rhino, Vindicator, Damocles, Hyperios, Sabre, Arquitor). The carried Vehicle does not count as deployed until disembarked.

Vehicle Drop

When this model arrives from Reserves (or in any of your Movement phases), it may set down its carried Vehicle anywhere within 6" of itself and more than 1" from enemy models. The carried Vehicle counts as having moved 6" that turn.

Strafing Run

Each time this model makes a ranged attack on a turn in which it moved 16" or more, that attack gains [SUSTAINED HITS 1].

DESIGNER'S NOTE — *Thunderhawk Transporter is the Thunderhawk variant configured to lift one Legion vehicle (Land Raider-class or smaller). The Heresy-era equivalent of an air-mobile vehicle drop. No 10e analog. HB: T13/Sv2+/W22 (super-heavy aircraft tier) + Hover + Fly + UNIQUE single-Vehicle transport mechanic + ability to set down the carried Vehicle within 6" of the Thunderhawk + Sustained Hits 1 on 16+ movement turn. 400 pts. Strategic — enables a Land Raider or Spartan to arrive turn 1-2 anywhere on the table.*
