ABILITIES

FLARE SHIELD

This model has a 5+ invulnerable save. Each time an attack is allocated to this model and the attacking model is more than 18" away, that attack has -1 to the Wound roll.

DOCTRINA IMPERATIVES

This model gains the effect of the chosen Doctrina Imperative each Command phase (Conqueror: Hit roll of 6 scores an additional Hit; Protector: enemy Hit rolls suffer -1). See faction ability card.

IRON DISCIPLINE

This unit automatically passes Battle-shock tests.

CONVEYOR CAPACITY

This Transport has a capacity of 12 Mechanicum Infantry models. Tech-Thralls count as 1 model. Thallax/Scyllax/Myrmidon/Arcuator count as 1 model. Ursarax count as 2 models.

DEADLY DEMISE D3

When this model is destroyed, roll one D6 before removing it; on a 6 each unit within 6" suffers D3 mortal wounds.

DESIGNER'S NOTE

Homebrew — HH3e → 10e Conversion. HH3e Triaros Armoured Conveyor. The canonical Mechanicum heavy transport. Anchored on Land Raider / Repulsor tier (T10 W14 Sv2+ OC4). Flare Shield is the canonical Triaros signature — long-range damage reduction in addition to a standard invul save.
