ABILITIES

Core

Leader, Deep Strike (with Death Company unit), Fights First.

Faction

Oath of Moment.

Leader

This model can be attached to one of the following units: **Death Company Marines**, **Death Company Intercessors**.

Black Rage

Each time this model or a model in its unit makes a melee attack, add 1 to the Attacks characteristic of melee weapons used in that attack. In addition, this unit cannot be targeted by Battle-shock and automatically passes any Battle-shock test.

Forlorn Hero [AURA]

While a friendly **Blood Angels Death Company** unit is within 9" of this model, each time a model in that unit makes an attack, you can re-roll a Hit roll of 1.

Abhor the Beast

Each time this model makes a melee attack against a unit with the **Orks** faction keyword, add 1 to the Strength and Damage characteristics of that attack.

Selfless Valour (Warlord)

If this model is your Warlord: each time this model performs a Heroic Intervention, it can move up to 6" (instead of up to 3"). Additionally, this model can perform a Heroic Intervention if it is within 6" of an enemy unit (rather than the standard 3").

Designer's Note

Homebrew — 9th Ed (Wahapedia source). Tycho the Lost (formerly Captain Erasmus Tycho of the 3rd Company) fell to the Black Rage during the Third War for Armageddon. He's had datasheets across editions as both "Captain Tycho" (loyal) and "Tycho the Lost" / "Death Company Tycho" (post-fall). Captain Tycho is in 10e Legends; Tycho the Lost was removed entirely. This is a homebrew 10e port of his 9th Ed Wahapedia profile: statline preserved (M6/T4/W5/Sv2+/4++); Blood Song dual-mode with -1 to hit if both fired same phase; abilities re-translated to 10e keywords (Forlorn Hero as Aura, Black Rage simplified, Abhor the Beast for the iconic anti-Ork bonus). Limited to 1 Tycho model per army. **Only one of Captain Tycho or Tycho the Lost can be your Warlord/army.**
