ABILITIES

Cortex Controller

While this unit is within 12" of a friendly **Tech-Priest** model, each time a model in this unit makes an attack you can re-roll a Hit roll of 1. If the friendly Tech-Priest has the **Cybertheurgist** keyword, re-roll all Hit rolls of 1.

Implacable Programming

This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back against its preprogrammed orders.

Doctrina Imperatives

This model gains the effect of the chosen Doctrina Imperative each Command phase (Conqueror: Hit roll of 6 scores an additional Hit; Protector: enemy Hit rolls suffer -1). See faction ability card.

Scouts 9"

After both players have deployed, but before the first turn begins, this unit can make a Normal move of up to 9".

Stealth

Each time a ranged attack is allocated to this unit and the attacking model is more than 12" away, subtract 1 from the Hit roll.

Hunter-Killer Subroutine

Each time a model in this unit makes an attack against the closest visible enemy unit, that attack has +1 to the Hit roll.

Designer's Note

Homebrew — HH3e → 10e Conversion. HH3e Vorax Attack Maniple. Light scout-class Battle-Automata — the Mechanicum's hunter-killers. Statline anchored on Skitarii Ruststalkers / 10e fast attack (T7 W4, M10"). Scouts 9" + Stealth + Hunter-Killer Subroutine all reflect HH3e Vorax flavour as predator units that flank and snipe priority targets.
