

WAZDAKKA'S ROADKILLAZ

RED ONES GO FASTA!

ORKS • EVIL SUNZ CLAN • DA KRIMSON KULT

Wazdakka Gutsmek bellows over the howl of nine engines, slamming the throttle of the Bloodrider until the rev-counter pops a rivet. Behind him, five Warbikerz lay down dakkagun fire so thick you could trip on it; ahead, three buggies and a flight of Deffkoptas comb the dust for somefink to krump. Da Krimson Kult does not hold ground. Da Krimson Kult takes ground at fifty miles per hour, and leaves it on fire.

FACTION ABILITY — WAAAGH!

"Throttle wide open, lads — WAAAGH!"

Once per battle, in your Command phase, you can call a WAAAGH! Until the start of your next Command phase: friendly **Orks** units can **Charge** in a turn in which they Advanced; the Attacks characteristic of melee weapons equipped by models in friendly Orks units is increased by **1**; and all **Orks Infantry** models gain a **5+ Invulnerable save**.

DETACHMENT RULE — DA KRIMSON KULT

Red Ones Go Fasta!

It iz a known fact among da Orks dat anyfink painted red goez fasta — an' Evil Sunz paint everyfink red.

Friendly **EVIL SUNZ SPEED FREEKS** units gain the following benefits:

- Add **+2"** to the Move characteristic of models in the unit.
- The unit is eligible to declare a **Charge** in a turn in which it Advanced.
- Each time the unit makes an Advance move, do not roll — the unit Advances **D6+2"**.

Glory Hog Bounty Pile-on

Da bigger da target, da bigger da glory. Da kult races for da biggest trophy on da field.

Each time a friendly **Da Krimson Kult** unit makes a melee attack against an enemy **VEHICLE** or **MONSTER** unit while the friendly unit is at full starting strength or made a Charge move this turn, that attack has the **[LANCE]** ability.

ENHANCEMENTS

Your **Wazdakka Gutsmek** model is your Warlord and has the **Glory Hog** Enhancement. You can replace this with **Speedboss Goggles**.

DEFAULT ENHANCEMENT

Glory Hog

"Knight? Battlewagon? Tank-of-da-week? I'll have all three on a stick."

The bearer's ranged AND melee weapons have **+1 to the Wound roll** against **VEHICLE** and **MONSTER** targets. In addition, each time the bearer destroys an enemy **VEHICLE** or **MONSTER**, you gain **1 Command Point** (max 1 CP per turn, max 3 from this enhancement per battle).

— OR —

OPTIONAL ENHANCEMENT

Speedboss Goggles

"Don't need 'em to see. Just look propa fast wearin' 'em."

The bearer ignores the Benefit of Cover when targeting enemy units. If the bearer Advanced this turn, until the end of the turn the bearer's ranged weapons gain the **[SUSTAINED HITS 1]** ability (or **[SUSTAINED HITS 2]** if they already had Sustained Hits).

SECONDARY OBJECTIVES

You will use the **Krimson Trail** secondary objective. You can replace this with **Roadkill Tally**.

DEFAULT SECONDARY OBJECTIVE

Krimson Trail

Da Krimson Kult does not retreat — it leaves an exhaust trail straight to da enemy commander's tent.

At the end of each player's turn, score **3VP** if a friendly **Da Krimson Kult** unit ended its Movement phase wholly within the opponent's deployment zone **OR** wholly within **12"** of an enemy battlefield edge. Score an additional **2VP** if two or more friendly Da Krimson Kult units satisfied this condition this turn. Maximum **12VP** per battle.

— O R —

OPTIONAL SECONDARY OBJECTIVE

Roadkill Tally

"Don't shoot at it. Drive over it. Saves bullets."

At the end of each player's turn, score **4VP** if a friendly **Da Krimson Kult** unit destroyed an enemy unit during the Charge sub-phase this turn (via Tyres + Tusks, ramming-style abilities, or Charge-triggered mortal wounds). Maximum **12VP** per battle.

STRATAGEMS

Throttle Wide Open! **[1 CP]**

Da Krimson Kult — Battle Tactic Stratagem

"Hold yer 'elmet, boyz, dis bit's a blur!"

WHEN: Your Movement phase, just before a friendly **Da Krimson Kult** unit makes an Advance move.

TARGET: That unit.

EFFECT: Add **+D3** to the unit's Advance roll (or to the unit's already-locked Advance distance if Red Ones Go Fasta! is converting the Advance to D6+2"). Until the end of the turn, the unit's ranged weapons gain the **[ASSAULT]** ability.

Drive-By Krumpin' **[1 CP]**

Da Krimson Kult — Battle Tactic Stratagem

"Hit 'em, krump 'em, leave 'em starin' at our exhaust."

WHEN: Your Charge phase, just after a friendly **Da Krimson Kult** unit ends a Charge move.

TARGET: That unit.

EFFECT: Until the end of the phase, melee weapons equipped by models in that unit gain **+1 to the Attacks characteristic** and the **[LANCE]** ability. In addition, after the unit Fights this Fight phase, it may make a **Normal Move of up to 6"**, even if Engagement Range was the trigger for that Fight (but the unit cannot end this move within Engagement Range of any enemy unit — that's how a drive-by works).

Burnin' Throttle **[1 CP]**

Da Krimson Kult — Strategic Ploy Stratagem

"Oi, dat ain't a Charge. Dat's an invitation to leave faster."

WHEN: Your opponent's Charge phase, just after an enemy unit declared a Charge against a friendly **Da Krimson Kult** unit.

TARGET: That friendly Da Krimson Kult unit.

EFFECT: Before the Charge roll is made, that unit makes a **Normal Move of up to 6"** (it counts as having Fallen Back this turn). It cannot end this move within Engagement Range of any enemy unit. Until the end of the turn, the unit's ranged weapons gain the **[ASSAULT]** ability, so it may still Overwatch and shoot in your next phase even though it Fell Back.

UNIT	PTS
A — Wazdakka Gutsmek [Warlord, Lone Op] <i>Psyko-gatler, Grabba dragga (ranged+melee), Speeding bulk & flaming exhaust, Fixit's wrench. Glory Hog enhancement. Throttlerokkit Shokka Engine: Command-phase pick of Turbo / Pulse Jet / Shokk Attack Engine.</i>	110
B — Warbikers (5) <i>1 Boss Nob + 4 Warbikers; twin dakkaguns, Warbike choppas, Boss Nob 'eavy choppa. Battleline via Waaagh! Wazdakka.</i>	115
C — Megatrakk Scrapjet <i>Twin big shoota, skrappy rokkit pack, wing missiles, nose drill. Anti-VEHICLE / anti-MONSTER ramming buggy.</i>	90
D — Shokkjump Dragsta <i>Kustom shokk rifle (sniper-style), big shoota, saw blades. Shokk Tunnel: once per battle, remove from board and re-deploy via Strategic Reserves rules.</i>	85
E — Boomdakka Snazzwagon <i>Rivet kannon, mek-speshul shoota, flashy gubbinz, spiked wheels. Light dakka skirmisher.</i>	75
F — Deffkoptas (3) <i>3× twin big shoota, 3× kopta rokkit, 3× spinnin' blades. FLY, hit-an'-run profile.</i>	90
Subtotal <i>Enhancement (Glory Hog) included in Wazdakka's entry.</i>	565
Approximate Total — trim Warbikers to 3 (-35 pts) for ~530, or run as-listed for a chunky 565 ~525-565 pts	

Designer's Note — Every Unit Has Speed Freeks Keyword: All six datasheets in this CP carry the canonical **SPEED FREEKS** keyword from BSData wh40k-10e (Wazdakka Gutsmek, Warbikers, Megatrakk Scrapjet, Shokkjump Dragsta, Boomdakka Snazzwagon, Deffkoptas). Wazdakka is a **Lone Operative Epic Hero** (he does NOT join other units), but his *Waaagh! Wazdakka* rule grants Warbikers the **Battleline** keyword while he is your Warlord, so the Warbikerz become the army's objective-grabbing core. Every model is Mounted or Vehicle — per the brief, this army has zero foot infantry. The detachment rule **Red Ones Go Fast!** doubles down on Evil Sunz lore (Move +2", Advance & Charge, D6+2" fixed Advance for no-roll consistency), the secondary *Krimson Trail* rewards the bikes for pushing deep into enemy territory each turn, and *Drive-By Krumpin'* is the iconic Speed-Freeks "hit-and-run" strat. Battlewagons (per user discussion) were considered but skipped — they do NOT carry the Speed Freeks keyword in 10e BSData, so they fall outside the brief. The Trukk DOES have Speed Freeks but carries no passenger in this list (no Boyz on foot), so it's also dropped. To downscale to the ~485 pt Combat-Patrol-box range, trim Warbikers from 5 to 3 (-35 pts).
