ABILITIES

Core

Leader, Deep Strike, Psyker.

Faction

Oath of Moment.

Leader

This model can be attached to one of the following units: **Tactical Squad**, **Sternguard Veteran Squad**, **Bladeguard Veteran Squad**, **Assault Intercessor Squad**.

Talisman of Sundered Souls

This model has a **4+ Invulnerable Save**. The first time during the battle that this model is forced to take a Perils of the Warp test (or equivalent self-damage from psychic effects), the test is automatically ignored.

Librarius Discipline

In your Command phase, this model can attempt to manifest **one** of the following:

• **Veil of Time:** Select one friendly **Mantis Warriors** unit within 18" — until your next Command phase, that unit can re-roll Advance and Charge rolls.

• **Might of Heroes:** Select this model or one friendly **Mantis Warriors Character** within 12" — until your next Command phase, melee attacks made by that model have +1 to the Strength characteristic and +1 to the Attacks characteristic.

Jungle-Hunter

This model and any unit it leads can re-roll Charge rolls if charging from terrain (a terrain feature with the Difficult or Defensible trait).

Designer's Note

Homebrew — 8th Ed source. **Memory categorization correction:** project_primarch.md had Ahazra Redth as 'Mantis Warriors / Apothecary' — but BSData IA9 unambiguously has her with Psyker profile (Cast 2 / Deny 2 / Smite + 2 Librarius powers), Force tulwar, and the Talisman of Sundered Souls relic. She is a Librarian, not an Apothecary. Stats anchor on 10e Librarian baseline (T4/W5/Sv2+/4++) — 8e profile matches almost exactly. Talisman preserves the canonical 4+ inv + ignore-first-Perils-of-the-Warp rule. Librarius Discipline gives her 2 powers per turn pick instead of 3 (Smite is now in the Ranged Weapons table). Jungle-Hunter is new flavor — reflects the Mantis Warriors' canonical jungle-world doctrine and Ahazra's heritage on Tranquility. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Librarian 70→75.
