ABILITIES

Core

Leader (Wolf Lord form only) — may join a unit of Grey Hunters, Blood Claws, Skyclaws, Long Fangs, Wolf Guard, or Wolf Guard Terminators. While in Wulfen-Shape, he immediately leaves any unit he was attached to.

Faction

Oath of Moment.

Curse of the Wulfen

At the start of any of your Movement phases from battle round 2 onward, OR immediately after this unit successfully completes a Charge move, you can declare that Bran Redmaw transforms. Replace his profile with the Wulfen-Shape statline + weapon. **The transformation is one-way** — he cannot revert. If he ends his Charge move in Wulfen-Shape, he gains +1 Attack on his Beast-form rending claws that Fight phase.

Bran **must** attempt to transform (rolling a D6: on a 4+, he transforms) at the start of any Movement phase in which he is below his starting Wounds. The Curse cannot be resisted indefinitely.

Saga of the Wolfkin *(Wulfen-Shape only)*

Once per battle, at the start of the Fight phase while in Wulfen-Shape, Bran can **Fight Twice**: after his attacks resolve, he can be selected to fight again before any other model.

Sire of Redmaw

[AURA] While in Wolf Lord form: friendly **Adeptus Astartes — Space Wolves** units within 6" can re-roll Battle-shock tests, and re-roll Hit rolls of 1 in melee. The aura is lost when Bran enters Wulfen-Shape (he is no longer leading; he is hunting).

Designer's Note

Homebrew — 7th Ed source (Imperial Armour 13: War Machines of the Lost and the Damned, FW Space Wolves). Bran Redmaw is the Wolf Lord who cannot suppress the Curse: in battle, he transforms mid-fight from a Wolf Lord into a Wulfen-Shape beast and tears the enemy line apart. The two-form datasheet preserves this identity faithfully: he starts as a competent canonical Wolf Lord (T4/Sv3+/W6 with 4+ inv, paired frost claws, an Aura, attached to a unit), and at any chosen moment from turn 2 onward (or after a successful charge) he transforms permanently into the Wulfen-Shape (T5/Sv4+, 5+ FNP, M8", +2 Attack on bigger rending claws with Devastating Wounds, can Fight Twice once per battle). The Curse is also **compulsory below starting Wounds** — he cannot be kept in human form forever once he is bleeding. 110 pts vs canonical Wolf Lord at ~80 pts reflects the dual-statline flexibility and the once-per-battle Fight Twice payoff. Pairs with the Svangir & Ulfgir homebrew datacard (the Hounds of Redmaw refuse to leave his side). **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
