Designer's Note

Homebrew — 8th Ed source. Corien Sumatris is the Astral Claws 4th Company Master — a vicious melee specialist who frequently led the Tyrant's Spear formation during the Badab War. Stats anchor on the 10e Captain baseline (T4/W6/Sv2+/4++) — same as Lufgt Huron's profile to preserve the in-Chapter consistency. Goldenfang preserves its 8e profile and the canonical 'D3 additional attacks on the charge' rule via Vicious Charge. Saint of Slaughter is new flavor — Sumatris is known in the Astral Claws codex as a champion-hunter, his blade-count growing each engagement. 11e

codex update (18 Oct 2026): power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
