ABILITIES

Core

Leader, Deep Strike.

Faction

Oath of Moment.

Leader

This model can be attached to one of the following units: **Sternguard Veteran Squad**, **Vanguard Veteran Squad**, **Bladeguard Veteran Squad**, **Assault Intercessor Squad**, **Tactical Squad**.

Rites of Battle (Salamanders) [AURA]

While a friendly **Salamanders** unit is within 6" of this model, each time a model in that unit makes an attack, you can re-roll a Hit roll of 1.

Master Duellist

If this model is within Engagement Range of one or more enemy **Character** models in the Fight phase, attacks made by this model gain **+2 to the Attacks characteristic** for the Cinder Edge that phase.

Sweep — Steelsliver

When this model uses the **Steelsliver** melee profile, instead of selecting a single target, make **1 attack against each enemy model within Engagement Range** of this model (to a maximum of 6 attacks). Resolve these against the model's unit normally.

Promethean Cult

Each time this model makes a melee attack with the Cinder Edge against a **Monster**, **Vehicle**, or **Character** target, an unmodified Wound roll of 5+ scores a Critical Wound.

Designer's Note

Homebrew — 8th Ed source. Pellas Mir'san is the Master of the 4th Company of the Salamanders — known across the Chapter as their finest single-combat duellist. Stats anchor on the 10e Captain baseline (T4/W5/Sv2+/4++). Cinder Edge preserves its 8e Damage D3 (rounded to flat 2 for 10e) plus Precision. Steelsliver becomes a true sweep attack (one swing per enemy in Engagement Range, capped at 6) — the 8e rule wording 'after his normal attacks, make a single attack against each enemy within 1"' is the lore-correct mechanic. Master Duellist preserves his +2 A vs Characters signature. Promethean Cult is new flavor — Mir'san is a particularly devoted Promethean priest-warrior, and his blade hunts the strongest opponent first. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
