### ABILITIES

**CORE**

Leader, Deep Strike.

**FACTION**

Oath of Moment.

**LEADER**

This model can be attached to one of the following units: Tactical Squad, Sternguard Veteran Squad, Bladeguard Veteran Squad, Centurion Devastator Squad, Devastator Squad.

**PURGE THE WEAK** [AURA]

While a friendly Sons of Medusa unit is within 6" of this model, each time a model in that unit makes an attack, you can re-roll a failed Hit roll (not just Hit rolls of 1 — full re-roll of failures).

**BLESSING OF THE OMNISSIAH**

At the end of your Movement phase, select one friendly Sons of Medusa Vehicle within 3" of this model. That model regains up to D3 lost wounds. A Vehicle can only be repaired once per turn.

**FORGE-MASTER**

Each time this model destroys an enemy Vehicle or Monster, until the end of the battle the Damage characteristic of Medusan Hammer is increased by 1.

### Iron Discipline

This model and any unit it leads automatically pass Battle-shock tests.

### Designer's Note

Homebrew — 8th Ed source. Vaylund Cal is the Iron Father of the Sons of Medusa — a successor Chapter of the Iron Hands with an even more pronounced Mechanicus-priest tradition. Stats anchor on the 10e Iron Father / Tech-Priest hybrid baseline (T6/W6/Sv2+/4++) with the canonical Servo-harness loadout. Medusan Hammer's 8e profile (S×2 AP-3 D D3 + MW-on-4+ unsaved-wound) is translated to S12/AP-3/D D3+1 with Devastating Wounds (the MW trigger is more reliable in 10e). **Purge the Weak is the strongest single-target aura in the entire 23-character roster** — re-roll FAILED Hit rolls (not just 1s) for Sons of Medusa near him. Forge-Master and Blessing of the Omnissiah preserve his canonical vehicle-repair and weapon-master flavor. 11e codex update (18 Oct 2026): power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
