ABILITIES

CORE

Leader, Lone Operative, Stealth, Deep Strike.

LEADER

This model can be attached to one of the following units: **Infiltrator Squad**, **Phobos Strike Team**, **Reiver Squad**, **Incursor Squad**, **Scout Squad**.

CHAPTER MASTER OF THE RAPTORS [AURA]

While a friendly **Raptors** unit is within 6" of this model, each time a model in that unit makes an attack, you can re-roll a Hit roll of 1.

INFILTRATE, ISOLATE, DESTROY [AURA]

While a friendly **Raptors Infantry** unit is within 6" of this model, add **+1"** to that unit's Move, Advance, and Charge characteristics.

MASTER OF AMBUSH

During deployment, after both players have deployed all other units, you can set up this model and up to **3** friendly **Raptors Infantry** units (excluding **Terminator** and **Gravis** units) in **strategic reserves**. They arrive automatically at the start of any of your Movement phases from the second battle round onward, and can be set up anywhere on the battlefield more than 9" horizontally from all enemy models.

STEALTH-MODIFIED ARMOUR

Each time a ranged attack targets this model, if this model is receiving the Benefit of Cover, add **2 to the saving throw** instead of **1** (maximum modified save of 2+).

GRIM HUNTER

This model is eligible to shoot and declare a charge in a turn in which it Fell Back, but cannot charge that turn (it may still shoot).

Designer's Note

Homebrew — 8th Ed source. Lias Issodon is the spectral Chapter Master of the Raptors, a Phobos-pattern Astartes who has not been seen in person by his own Chapter brothers in over a century — he commands from the shadows. He has no 10th Edition datasheet (FW Adeptus Astartes was dropped at 10e launch). Stats anchor on a 10e Phobos-pattern Chapter Master profile — lighter T4 instead of the Terminator-tier T6, with M7 (faster than standard Chapter Master) reflecting his stealth armour. Malice preserves its 8e profile (Ignores Cover, special bolt rifle) with PRECISION added — it can pick out characters in a screen. Master of Ambush + Lone Operative + Stealth gives him the 'ghost commander' archetype the lore demands. 11e codex update (18 Oct 2026): power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
