ABILITIES

CORE

Leader, Deep Strike, Psyker.

FACTION

Oath of Moment.

LEADER

This model can be attached to one of the following units: **Wolf Guard Terminator Squad**, **Wolf Guard Pack**, **Grey Hunters**, **Blood Claws**.

LORD OF STORMS [AURA]

While a friendly **Space Wolves** unit is within 6" of this model, that unit can re-roll Battle-shock tests. In addition, while this model is leading a unit, the unit's ranged weapons gain the [LETHAL HITS] ability.

PSYCHIC HOOD

Each time an enemy **Psyker** attempts a Psychic ability within 18" of this model, on a roll of 4+ that ability fails. (Equivalent to the canonical 10e Psychic Hood / Witch Sense ability.)

TEMPESTS OF THE WOLF

At the start of each Battle round (after the first), roll one D6: on a 4+, select one enemy unit visible to and within 18" of this model — that unit suffers D3 mortal wounds. This represents Njal's wild storm-summoning abilities (8th Ed: Living Lightning power).

DESIGNER'S NOTE

Homebrew — 8th Ed (pre-Rubicon Primaris). Njal Stormcaller is the senior Rune Priest of the Space Wolves. The current canonical 10e **Njal Stormcaller** datasheet (M7"/T4/Sv3+/W4) represents his post-Rubicon Primaris form. This homebrew is the original **pre-Rubicon Njal in Runic Terminator Armour**: tougher (T5/W6, 2+ save, 4+ Inv), slower (M5"), with the iconic Staff of the Stormcaller and Nightwing familiar from 5th-9th Ed Codex Space Wolves. Lord of Storms aura captures his battle-frenzy, Tempests of the Wolf is a 10e adaptation of his classic D6 Living Lightning effect. Use this card for the Termi-armour Njal model; use the canonical 10e datasheet for the Primaris Njal. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain in Terminator Armour 85→90.
