LEADER

This model can be attached to one of the following units: **Sternguard Veteran Squad**, **Tactical Squad**, **Bladeguard Veteran Squad**, **Assault Intercessor Squad**.

ASTARTES BANNER (RED SCORPIONS) [AURA]

While a friendly **Red Scorpions** unit is within 6" of this model, that unit improves its Leadership characteristic by **1**, and the unit's OC characteristic increases by **1** while it controls an objective.

LAST STAND OF THE SCORPION

Each time a friendly **Red Scorpions Infantry** model within 6" of this model is destroyed by an attack made by an enemy model (and not by a battle-shock or game-effect), before that model is removed, you may roll one D6: on a **4+**, that model can either make a single ranged attack with one of its ranged weapons OR make a single melee attack with one of its melee weapons, before being removed as a casualty.

STANDARD BEARER

While this model is on the battlefield, each time a friendly **Red Scorpions** unit makes a Battle-shock test, that test is automatically passed.

DESIGNER'S NOTE

Homebrew — 8th Ed source. **Memory categorization correction:** project_primarch.md had Sirae Karagon listed as 'Red Scorpions / Apothecary' but BSData IA9 unambiguously has her wargear as Power sword + Astartes Banner (Red Scorpions) ability — she's a Chapter Ancient (standard-bearer), not an Apothecary. The memory roster has been logged with this correction for future batches. Stats anchor on a 10e Ancient/Standard-Bearer baseline (T4/W4/Sv2+, no invuln) with elevated Sv2+ from her relic-pattern Cataphractii-derived armour. Last Stand of the Scorpion preserves the canonical 'one last attack on death' rule. Standard Bearer adds the standard 10e Ancient passive (Battle-shock auto-pass for nearby units). **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
