

# ASDRUBAEL VECT

**SUPREME OVERLORD OF COMMORRAGH**

AELDARI • DRUKHARI • BLACK HEART KABAL

*The Sceptre of Dark Millennia is a relic of pre-Fall Eldar craftsmanship — an obsidian-tipped power-staff that has slain Daemon Princes, Phoenix Lords, and rival Archons alike. Vect alone is permitted to wield it.*

## ABILITIES

### Splinter pistol

[PISTOL] [ANTI-INFANTRY 4+]

### The Sceptre of Dark Millennia

[DEVASTATING WOUNDS] [PRECISION]

### Core

[LEADER] [LONE OPERATIVE] [DEEP STRIKE]

### Leader

This model can be attached to one of the following units: Kabalite Warriors, Kabalite Trueborn, Incubi.

### Shadow Field

This model has a 3+ Invulnerable Save. The first time this model fails an Invulnerable save in any phase, its Invulnerable save is permanently reduced to 6+ for the rest of the battle.

### Supreme Overlord [AURA]

While a friendly Drukhari unit is within 6" of this model, that unit re-rolls Hit rolls of 1, and while wholly within your opponent's deployment zone, also re-rolls Wound rolls of 1.

### Master of Combat Drugs

In your Command phase, you may select one Combat Drug for this model and any unit it leads (instead of rolling randomly). The chosen drug applies until your next Command phase, and the unit gains +1 to Wound rolls for the entire duration (in addition to the drug's normal effects).

### Eternal Spite

Each time this model would lose its last wound, roll one D6: on a 5+, this model is not destroyed and instead has its remaining Wounds set to 1. This ability cannot trigger more than once per battle.

## UNIT COMPOSITION

**Keywords:** INFANTRY, CHARACTER, EPIC HERO, ARCHON, ASDRUBAEL VECT

**Faction Keywords:** AELDARI, DRUKHARI

**Designer's Note.** Asdrubael Vect, Supreme Overlord of Commorragh, was removed from BSData before 7e (2014) — no cached repo entry exists across 7e/8e/9e/10e. Profile translated from the 5e Codex Dark Eldar (2010) source, anchored on the Archon baseline (T4/Sv2+/3++) elevated to Supreme Overlord tier. Shadow Field degrade-on-fail rule preserved verbatim. Combat Drugs auto-select is the canonical Vect mechanic. Eternal Spite

gives him one resurrection per battle, reflecting that he never truly lost in the lore. **11th-edition verification, 2026-08-31:** checked current 11e BSDData directly — no match for "Vect" anywhere (only unrelated substring false-positives); still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass.
