This model can be attached to one of the following units: Hellions, Reavers, Scourges.

Shadow Field

This model has a 4+ Invulnerable Save. The first time this model fails an Invulnerable save in any phase, its Invulnerable save is permanently reduced to 6+ for the rest of the battle.

Hit & Run

This model and any unit it leads can declare a Fall Back move in any of your Movement phases and still shoot, charge, or fight that turn (as if it had not Fallen Back).

Skyboard Mastery

When this model is part of a unit of Hellions, the unit gains the [LONE OPERATIVE] ability while at full strength (10 or more models). On a turn this model finished a Charge move, attacks made by Hellglaive gain +1 to the Wound roll.

Lord of the Sky-City [AURA]

While a friendly Hellions unit is within 6" of this model, that unit re-rolls Charge rolls and gains +1 to its Move characteristic.

Designer's Note. Baron Sathonyx is the Drukhari Hellions character — gave Hellions an HQ option in 5e (when they were normally just Fast Attack). Dropped from BSData before 7e. Stats anchor on the Hellions-tier baseline (M12/T3/Sv4+/4++) with Hellion-specific buffs. The canonical 5e "Hellions become Troops if Sathonyx is Warlord" rule is replaced with the modern equivalent — Skyboard Mastery + Lord of the Sky-City auras that scale Hellions'

effectiveness. Hit & Run preserves his canonical post-Fall-Back ability. **11th-edition verification, 2026-08-31:** checked current 11e BSDData directly — no match for "Sathonyx" anywhere; still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass.
