

CAPTAIN CHENKOV

SEND IN THE NEXT WAVE!

ASTRA MILITARUM • VALHALLAN • IMPERIUM

Chenkov's entire career was built on the iron logic that Valhalla never runs out of conscripts. Where other commanders count their losses, Chenkov counts the corpses he can throw at the foe.

Core

[LEADER]

Leader

This model can be attached to one of the following units: Cadian Shock Troops, Catachan Jungle Fighters, Krieg Combat Engineers, Cadian Command Squad. (Represents Valhallan Infantry under Chenkov's command, proxied as the generic Astra Militarum datasheet.)

"Send in the Next Wave!" Order

Once per battle, in your Command phase, you can issue the Send in the Next Wave! Order to a friendly destroyed Astra Militarum Infantry unit from your army. Set up a new copy of that unit (at full starting strength) wholly within 6" of any battlefield edge and more than 9" from any enemy units. The new unit counts as a different unit for all purposes (objectives, kills, secondary objectives).

"Numbers Are A Weapon" Order

Once per turn, you can issue this Order to a friendly Astra Militarum Infantry unit within 6" of this model that contains 7 or more models. Until the end of the turn, ranged weapons equipped by models in that unit have +1 to the Hit roll and the [SUSTAINED HITS 1] ability.

Disposable!

Friendly Astra Militarum Infantry units wholly within 6" of this model automatically pass Battle-shock tests, and may ignore the -1 OC modifier normally applied to a Battle-shocked unit even when not within Chenkov's aura.

UNIT COMPOSITION

1 Captain Chenkov model. This model is equipped with: 1 laspistol; 1 Valhallan power sword or frost-bladed chainsword.

Designer's Note. Captain Chenkov was the Valhallan Ice Warriors' attrition-strategy character in 5th-7th Ed Codex Imperial Guard. His three signature abilities were "Send in the Next Wave!" (literally return-from-the-dead for entire Conscript squads), "Numbers Are A Weapon" (bonus when units are at strength), and "Disposable!" (ignore morale

because more bodies are coming). This conversion preserves all three, throttling Send in the Next Wave to once-per-battle to balance for the current game's smaller infantry counts. **11th-edition verification, 2026-08-31:** checked current 11e BSData directly — no match for "Chenkov" anywhere; still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass.
