

VECT ON THE DAIS OF DESTRUCTION

ANTI-GRAV THRONE VARIANT

AELDARI • DRUKHARI • BLACK HEART KABAL

The Dais of Destruction is an anti-grav throne-cum-warship — a fortress-sized scimitar-shaped craft mounted with the heaviest weaponry the Dark Eldar can field. Vect commands it personally from a raised dais at its prow.

Open-Topped Transport

This model has a Transport capacity of 10 Drukhari Infantry models. Models embarked within this transport can shoot as if they were not embarked, and can disembark even if this model has Advanced (but cannot then charge that turn).

Shadow Field

This model has a 4+ Invulnerable Save. The first time this model fails an Invulnerable save in any phase, its Invulnerable save is permanently reduced to 6+ for the rest of the battle.

Vect Commands [AURA]

While a friendly Drukhari unit is within 9" of this model, that unit re-rolls Hit rolls of 1. Additionally, this model and its passengers count as Vect being on the battlefield for the purposes of Supreme Overlord (the standing version of Vect cannot be fielded in the same army).

Night Shield

Each time a ranged attack with a Range of 24" or more targets this model, that attack's Range is treated as 6" shorter.

Flickerfield

Each time a ranged attack would inflict damage on this model, you may roll one D6: on a 5+ (4+ against attacks with the [BLAST] keyword), that damage is reduced to 0.

UNIT COMPOSITION

1 Vect on the Dais of Destruction model. This model is equipped with: 1 Twin Splinter Cannon; 1 Dark Lance; 2 Disintegrator Cannons; 1 The Sceptre of Dark Millennia.

Designer's Note. This is the Lord-of-War-tier vehicle variant of Asdrubael Vect. Dropped from BSData before 7e. Stats anchor on a hybrid of Raider and Drukhari super-heavy patterns, elevated to Lord of War tier. Three signature weapons (Twin Splinter Cannon + Dark Lance + paired Disintegrator Cannons) preserve the canonical 5e profile. Open-Topped Transport carries 10 models — fits a full Kabalite Warriors squad. Night Shield + Flickerfield are translated from the canonical 5e Drukhari vehicle abilities. Important: the standing Vect and the Dais cannot both be fielded in the same army — they represent the same character in two presentations. **11th-edition verification, 2026-08-31:** checked current 11e BSData directly — no match for "Dais of Destruction" anywhere; still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass.
