COMBAT PATROL

KALEIDOSCOPIC ONSET

AELDARI (HARLEQUINS) | WARHAMMER 40,000 | 11TH EDITION

A Solitaire leads the masked killers of the Laughing God — a Troupe of Players striking from the shadows, a pair of Skyweavers harrying from above, and Starweaver and Voidweaver skimmers bringing devastation from every angle at once.

This is a fan conversion, not an official Games Workshop product. Kaleidoscopic Onset was never published as a printed Combat Patrol card by Games Workshop — its rules only ever existed in the Warhammer 40,000 app and were lost when the app switched over to 11th edition; this reference reconstructs those 10th-edition rules and adapts them to the 11th-edition Combat Patrol framework (Detachment Points, a new Detachment Rule, Force Dispositions, and two unit-targeted Enhancements), following the conventions observed across GW's own official 11th-edition Combat Patrol conversions. Formatted to match the No Figure Left Behind Combat Patrol archive.

ARMY RULE

BATTLE FOCUS

If your Army Faction is Asuryani, at the start of the battle round, you receive 2 Battle Focus tokens.

Each time one of the triggers shown in the Agile Manoeuvres section below occurs, you can spend one Battle Focus token to enable the relevant eligible unit to perform that Agile Manoeuvre. A unit is eligible to perform an Agile Manoeuvre if it has this ability and has not already performed an Agile Manoeuvre in the same phase. Unless otherwise stated, you cannot trigger the same Agile Manoeuvre more than once per phase. At the end of the battle round, all unspent Battle Focus tokens are lost.

Swift as the Wind

Trigger: When an eligible unit from your army is selected to make a Normal, Advance or Fall Back move. (Can trigger more than once per phase, provided a different unit performs it each time.)
Effect: Until the end of the phase, add 2" to the Move characteristic of models in that unit.

Flitting Shadows

Trigger: When an eligible unit is selected to make a Normal, Advance or Fall Back move, is set up on the battlefield, or declares a charge.
Effect: Until the end of the turn, enemy units cannot use the Fire Overwatch Stratagem to shoot at that unit.

Star Engines

Trigger: When an eligible Vehicle unit is selected to make an Advance move.
Effect: Until the end of the turn, ranged weapons equipped by this unit have the [ASSAULT] ability.

Sudden Strike

Trigger: When an eligible unit is selected to fight.
Effect: Until the end of the phase, each time a model in that unit makes a Pile-in or Consolidation move, it can move up to 6" instead of up to 3".

Opportunity Seized

Trigger: When an enemy unit ends a Fall Back move.
Effect: One eligible unit (excluding Titanic units) that started the phase within Engagement Range of that enemy unit can make a Normal move of up to D6+1".

Fade Back

Trigger: In your opponent's Shooting phase, just after an enemy unit has shot.
Effect: One eligible unit (excluding Titanic units) that was hit by one or more of those attacks can make a Normal move of up to D6+1".

DETACHMENT RULE

KALEIDOSCOPIC ONSET

Detachment Points: To use this detachment you must spend 1 DP.

LABYRINTHINE ASSAULT

Each time a friendly Kaleidoscopic Onset unit arrives on the battlefield from Reserves or makes an Advance move, that unit can immediately perform one Agile Manoeuvre without spending a Battle Focus token to do so.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Disruption.

STRATAGEMS

WEAKNESS AS STRENGTH **1CP**
Kaleidoscopic Onset
When: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.
Target: One friendly Kaleidoscopic Onset unit that was selected as the target of one or more of the attacking unit's attacks.
Effect: Until the end of the phase, each time an attack targets your unit, if the Strength characteristic of that attack is greater than your unit's Toughness characteristic, subtract 1 from the Wound roll.

Kaleidoscopic Onset
When: Your Movement phase, just after a friendly Kaleidoscopic Onset unit Falls Back.
Target: That Kaleidoscopic Onset unit.

Kaleidoscopic Onset
When: Any phase.
