GLOEMING BLADES

DEATH GUARD | WARHAMMER 40,000 | 11TH EDITION

Phlegmus Gloem delights in brewing exotic plague strains and unleashing them upon the foe, always aiming to produce the most spectacular and gruesome symptoms possible. The fruits of his labours are such that even the daemons of Nurgle clamour to appreciate them, eagerly oozing through the veil for the privilege — drawing a warband of Plague Marines and their daemonic kin to spread contagion wherever they march.

ARMY RULES

NURGLE'S GIFT (AURA)
If your Army Faction is Death Guard, while an enemy unit is within Contagion Range of one or more Death Guard units from your army, it is Afflicted.

Contagion Range: 1st Battle Round — 3"; 2nd Battle Round — 6"; 3rd Battle Round onwards — 9" (Contagion Range cannot be greater than 12" after modifiers).

Afflicted: During the Declare Battle Formations step, select one of the Plagues below. Until the end of the battle, while an enemy unit is Afflicted, subtract 1 from the Toughness characteristic of models in that unit, and that unit has the effect of your chosen Plague.

Skullsquirm Blight — Each time a model in this unit makes a melee attack, subtract 1 from the Hit roll.

Rattlejoint Ague — Worsen the Save characteristic of models in this unit by 1.

Scabrous Soulrot — Worsen the Move, Leadership and Objective Control characteristics of models in this unit by 1 (this rule can only worsen a model's Objective Control characteristic to a minimum of 1).
