COMBAT PATROL

SACRED MANIPLE

TAGHMATA OMNISSIAH (LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

The Magos walks among his Castellax as a priest among his choir, each binary cant a prayer answered in mauler bolt-fire. The Thallax flank, the Krios anchors, and the Sacred Algorithms compute the path of every shell. Mars endures — one cogitator at a time. Sacred Maniple is a fully homebrew Combat Patrol for the Taghmata Omnissiah (Loyalist Mechanicum) faction — a Horus Heresy-era Mechanicum warband adapted to the Warhammer 40,000 11th-edition Combat Patrol framework. All datasheets, the Army Rule, and the Detachment Rule are original homebrew content — the loyalist counterpart to Heretek Maniple. Formatted to match the No Figure Left Behind Combat Patrol archive.

ARMY RULE

DOCTRINA IMPERATIVES

At the start of the battle round, you can select one of the Doctrina Imperatives below. Until the end of the battle round, that Doctrina Imperative is active for your army, and all units from your army that have the Doctrina Imperatives ability gain the relevant abilities shown below.

• **Protector Imperative** — Ranged weapons equipped by models in this unit have the [HEAVY] ability. Improve the Ballistic Skill characteristic of ranged weapons equipped by models in this unit by 1. Each time a melee attack targets this unit, if this unit has the Battleline keyword and/or it is within 6" of one or more friendly Adeptus Mechanicus Battleline units, subtract 1 from the Hit roll.

• **Conqueror Imperative** — Ranged weapons equipped by models in this unit have the [ASSAULT] ability. Improve the Weapon Skill characteristic of melee weapons equipped by models in this unit by 1. Each time a model in this unit makes an attack, if this unit has the Battleline keyword and/or it is within 6" of one or more friendly Adeptus Mechanicus Battleline units, improve the Armour Penetration characteristic of that attack by 1.
