Designer's Note. Adapted from HH3e Castellax Battle Maniple. Allegiance-neutral — usable by both Taghmata (Loyalist) and Dark Mechanicum (Heterodox) boxes. Converted from the 10e-era homebrew (itself adapted from HH3e). **11th-edition conversion, 2026-08-14:** restored a Paragon of Metal / Siege Wrecker distinction that HH3e data confirmed at the time (one of the 3 base models upgraded with a unique anti-vehicle melee weapon in place of Power Blades). **Reverted, 2026-08-28:** a fresh HH3e BSData pull (last refreshed 2026-08-04, now current to 2026-08-26) shows GW/BSData removed the "Castellax (Paragon of Metal)" model and its Siege Wrecker weapon

> entirely — neither exists anywhere in current data (checked directly, not just hidden). Reverted to 3 identical Power-Blades-only models, matching current BSData exactly. This is a genuine upstream content change, not a re-litigation of the original 2026-08-14 finding — that finding was correct against the BSData available at the time. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
