Designer's Note. HH3e Castellax Destructor Maniple variant. Same Kastelan-tier chassis as the Battle Maniple but specialised anti-armour loadout. Darkfire cannon profile combines Heresy-era beamer aesthetics with current-edition [LANCE] + [DEVASTATING WOUNDS] for the iconic "punches a tank in one shot" feel. **11th-edition verification, 2026-08-28:** confirmed still current in fresh HH3e BSData (`Mechanicum.json`, non-hidden, "Castellax Destructor Maniple", typed "Automata"). **Composition simplified:** the "Castellax (Paragon of Metal)" leader variant this card previously called for is now `hidden: true` and has an identical stat/weapon profile to the

> plain Castellax (same finding as the Battle-Automata and Arlatax siblings) — dropped the named-leader distinction, matching the same fix just applied to the base Castellax Battle-Automata reference card and the Heretek Maniple / Sacred Maniple CPs. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
