HOMEBREW — 1ST ED SOURCE

CONQUEROR BATTLE ROBOT

135 POINTS

MULTI-TARGET BATTLE AUTOMATA

ADEPTUS MECHANICUS • IMPERIUM

Industrial power fist on the off-arm — not the Conqueror's preferred engagement style, but enough to dismember anything that closes within reach. Both heavy weapons may be swapped pre-battle for similar-class heavy weapons per the controlling Tech-Priest's preference.

MODEL	M	T	SV	W	LD	OC
Conqueror Battle Robot	6"	8	3+	6	7+	2

RANGED WEAPONS

WEAPON	RANGE	A	BS	S	AP	D
Heavy Bolter	36"	3	4+	5	-1	2
Autocannon	48"	2	4+	9	-1	2

MELEE WEAPONS

WEAPON	RANGE	A	WS	S	AP	D
Power Glove	Melee	4	3+	10	-2	2

ABILITIES

CORE: Deadly Demise D3

Faction — Doctrina Imperatives
See Army Rule.

Atomantic Cortex Shielding
This model has a 5+ invulnerable save.

Implacable Programming
This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back or leave the battlefield against its preprogrammed orders.

Multi-Target Cogitator
Each time this model is selected to shoot, you can split its ranged attacks: each of its ranged weapons can target a different enemy unit (rather than all weapons being required to target the same unit). This rule does not allow the Conqueror to target units it could not normally see or shoot.

Cortex Override Vulnerability
If there is no friendly Adeptus Mechanicus Character model within 12" of this model at the start of your Command phase, this model can only move toward the nearest visible enemy unit during its next Movement phase, and must attempt to charge if able.

Explodes (5+)
When this model is destroyed, roll one D6 before removing it from play; on a 5+ each unit within 6" suffers D3 mortal wounds.

Heavy Bolter
[SUSTAINED HITS 1]

UNIT COMPOSITION

1 Conqueror Battle Robot model. This model is equipped with: 1 heavy bolter; 1 autocannon; 1 power glove.

Keywords: VEHICLE, WALKER, BATTLE ROBOT, CONQUEROR

Faction Keywords: ADEPTUS MECHANICUS, IMPERIUM

> **Designer's Note.** The Conqueror from the RT Compendium (1987) carried two heavy weapons (heavy bolter and autocannon) alongside a power glove, marking it as the most weapon-dense of the five Imperial battle robots. The Multi-Target Cogitator ability captures the lore that a Conqueror's cortex was tuned to allocate fire across multiple

battlefield priorities simultaneously — a forerunner of the targeting computers that would later appear on modern Adeptus Mechanicus combat platforms. **11th-edition verification, 2026-08-31:** checked current 11e BSData directly (including broadened searches and HH-era sources) — no genuine match anywhere (only unrelated substring false-positives like "Dynastic Conqueror"); still genuinely unsupported. No related real chassis exists to calibrate against. No stat corrections possible; kept as-is from the prior 10e conversion pass. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
