ABILITIES

Faction — Doctrina Imperatives
See Army Rule.

Cortex Controller
While this unit is within 12" of a friendly Tech-Priest model, each time a model in this unit makes an attack you can re-roll a Hit roll of 1. If the friendly Tech-Priest has the Cybertheurgist keyword, re-roll all Hit rolls of 1 instead.

Implacable Programming
This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back against its preprogrammed orders.

Guardian Protocols
While this unit is within 3" of a friendly Mechanicum Character, that Character has the Feel No Pain 5+ ability and ranged attacks against it suffer -1 to the Wound roll.

Bolt Caster
[RAPID FIRE 1]

Designer's Note. HH3e Scyllax Guardian Maniple. Lighter escort-class automata, intended to bodyguard Tech-Priests. Statline anchored between Skitarii Vanguard and Wraithguard (T7 W3 — smaller chassis than Castellax). Guardian Protocols gives them a clear board role independent of their parent unit. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData as "Scyllax Guardian Maniple" (`Mechanicum.json`, non-hidden, typed "Automata"). Real SAV3+ matched; real INV6+ was missing from this card entirely — added (invuln maps directly per established convention). Also checked `Scyllax (Paragon of Metal)`: hidden and byte-identical to the plain Scyllax profile, same pattern as Arlatax/Domitar/Echidnax — this card's separate "Sub-Construct Alpha" leader concept is unrelated to BSData's Paragon of Metal naming, no composition change needed. 11th-edition

> rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
