DETACHMENT — HORUS HERESY (30K)

TAGHMATA OMNISSIAH

MECHANICUM (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

The Taghmata Omnissiah are the Mechanicum that did not break — the Forge Worlds, Magos, and Battle-Automata who held the sacred catechism of the Machine God when Kelbor-Hal's heresy split Mars in two. This detachment converts the canonical HH3e Taghmata Omnissiah army into an 11e-style Detachment. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

DOCTRINA IMPERATIVES

These units use the Adeptus Mechanicus army rule **Doctrina Imperatives** (Codex: Adeptus Mechanicus, 11th edition): at the start of each battle round, select one Doctrina Imperative; it is active for every unit from your army with the Doctrina Imperatives ability until the end of the battle round.

DETACHMENT RULE

SACRED ALGORITHMS

Detachment Points: To use this detachment you must spend 1 DP.

The Loyalist Mechanicum's sacred targeting cant guides every shot with the Omnissiah's blessing. Each time a friendly Horus Heresy unit makes an attack while it is within 12" of a friendly Tech-Priest model, that attack has the [LETHAL HITS] ability. Horus Heresy Mechanicum units can only be included in your army while you are using this detachment or the Dark Mechanicum detachment.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Take and Hold.

DETACHMENT COMPOSITION

Included: All canonical Mechanicum (Taghmata) units, all Skitarii Conclaves units, all Questoris Familia Knights (canonical 11e + Legends). Standard Mechanicum characters (Archmagos, Magos, Tech-Priest, and their on-Abeyant variants).

Excluded: Heterodox-locked characters — Anacharis Scoria, Archmagos Draykavac. Heterodox-locked daemon engines — Blood Slaughterer, Brass Scorpion, Kytan Daemon Engine, Decimator. These appear only in the Dark Mechanicum detachment.

ENHANCEMENTS

SACRED HEXAGRAMMIC WARDS (20 pts) — *Character model only*

The bearer's flesh and chassis alike are etched with arcane wards drawn from forbidden cogitations — symbols that turn aside the warp's whispers and the witch's curse. The bearer has a 5+ invulnerable save, and a 4+ invulnerable save against attacks with the [PSYCHIC] ability.

IMPERATIVE AUGMENTATION (15 pts) — *Character model only*

The bearer has undergone an arduous augmetic rebuild — sub-dermal armour weave, redundant cardiac engines, secondary cogitator nodes. Add 1 to the Toughness and Wounds characteristics of the bearer.

OMNISSIAN MARK (20 pts) — *Character model only*

The bearer carries the Omnissiah's sacred glyph, a binary code older than the Imperium itself. Once per battle, in your Command phase, the bearer regains up to D3+3 lost wounds. In addition, while the bearer is on the battlefield, once per battle, you can change your active Doctrina Imperative at the start of any phase.

COGITATOR MASTERY (15 pts) — *Character model only*

The bearer is a master of the army's combined logic-stream — through her cortex, every Tech-Priest in range thinks faster, fights cleaner. While the bearer is on the battlefield, you can re-roll Battle-shock tests taken for friendly Adeptus Mechanicus units within 12" of the bearer.

STRATAGEMS

PRE-CALCULATED STRIKE **1CP**
Taghmata Omnissiah — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Adeptus Mechanicus unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, each time a model in that unit makes a ranged attack that targets the closest eligible target, add 1 to the Wound roll.

ADSECULARIS DISCIPLINE **1CP**
Taghmata Omnissiah — Battle Tactic Stratagem

When: Your Command phase, after the Battle-shock step.

Target: One friendly Adeptus Mechanicus unit.

Effect: Until the start of your next Command phase, that unit automatically passes Battle-shock tests and models in it add 1 to their Objective Control characteristic.

SANCTIFIED AUSPEX **1CP**
Taghmata Omnissiah — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Adeptus Mechanicus unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, ranged weapons equipped by models in that unit have the [IGNORES COVER] ability, and each time a model in that unit makes an attack, you can re-roll a Hit roll of 1.

CYBERTHEURGICAL OVERRIDE **2CP**
Taghmata Omnissiah — Strategic Ploy Stratagem

When: Start of your opponent's Charge phase.

Target: One friendly Adeptus Mechanicus unit within 12" of a friendly Tech-Priest model.

Effect: Until the end of the phase, each time that unit is targeted with the Fire Overwatch Stratagem, hits are scored on unmodified Hit rolls of 5+, and each time an enemy model makes an attack that targets that unit, subtract 1 from the Hit roll.

SACRED RITES OF THE FORGE **1CP**
Taghmata Omnissiah — Battle Tactic Stratagem

When: Your Command phase.

Target: One friendly Adeptus Mechanicus Vehicle or Horus Heresy automata unit.

Effect: Until the start of your next Command phase, that unit has the Feel No Pain 5+ ability. In addition, one model in that unit regains 1 lost wound, or one destroyed model is returned to that unit with 1 wound remaining.

IRON DISCIPLINE OF MARS **1CP**
Taghmata Omnissiah — Epic Deed Stratagem

When: End of any phase, if a friendly Adeptus Mechanicus unit lost one or more models this phase.

Target: That unit.

Effect: One destroyed model is returned to that unit with 1 wound remaining, set up in unit coherency and not within Engagement Range of any enemy units. You can only use this Stratagem once per battle on each unit.

DESIGNER'S NOTE

Homebrew — HH3e (2022) Mechanicum, 11e conversion. Taghmata Omnissiah is the Loyalist Mechanicum faction that held Mars (or fled to the Imperium) during Kelbor-Hal's heresy, anchoring on Doctrina Imperatives as the Faction Ability. Sacred Algorithms rewards keeping a Tech-Priest within 12" of your shooters — the same incentive that drove the original HH3e Cortex Controller mechanic. Reformatted 2026-08-31 to the current 11e Detachment framework (Detachment Points, Force Dispositions) from an earlier 10e-format draft; rules content (Doctrina Imperatives, Sacred Algorithms, all Enhancements and Stratagems) is unchanged, since the underlying Mechanicum (HH) unit datasheets referenced here were already verified current against 11e BSData in an earlier project pass. Composition list reflects HH3e allegiance locks: Heterodox-only characters and daemon engines move to the Dark Mechanicum detachment. 11th-edition rules pass, 2026-10-10: matched to the New Recruit NFLB data — these units now sit in Adeptus Mechanicus and use its official Doctrina Imperatives army rule; Force Disposition changed from Fortified Ground (not an 11e disposition) to Take and Hold; enhancement points added; stratagem wording updated.
