Atomantic Shielding
This model has a 5+ invulnerable save.

While this unit is within 12" of a friendly Tech-Priest model, each time a model in this unit makes an attack you can re-roll a Hit roll of 1. If the friendly Tech-Priest has the Cybertheurgist keyword, re-roll all Hit rolls of 1 instead.

> **Designer's Note.** HH3e Thanatar Siege Maniple. The heaviest Battle-Automata chassis short of an Ordinatus. Statline approaches Knight-tier (T11 W12) reflecting siege-class armour. Hellex plasma mortar is the canonical HH3e Thanatar armament; Calix and Cynis variants listed as wargear options to consolidate the three Thanatar sub-patterns into one card. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData (`Mechanicum.json`, non-hidden, typed "Automata (Heavy)"). Real SAV2+/INV5+ matched exactly. This card was missed from the initial folder tracking list and caught after the fact — flagged by the user during the folder-completion review. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
