Designer's Note. Arquitor is a Rapier-class heavy mortar bombard — indirect-fire artillery on a small tracked chassis crewed by Legionaries. The canonical Rapier Carrier (Legends) covers the platform, but the Arquitor variant has a much bigger indirect-fire blast profile. HB: T7/Sv4+/W6 (compact Rapier-tier) plus Indirect Fire with auto-Wound on a Hit of 6+, and Wound-1 re-rolls against 6+ model units. 95 pts — cheap backline bombardment platform, every Legion fields 1-3 of these. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData ('Legiones Astartes.json', non-hidden, typed "Vehicle"). Real profile uses the older Vehicle armour-facing format (Front13/Side12/Rear10/HP6) rather than T/W/SV — no direct comparison possible, kept as-is (format conversion only).
