

BREACHER SQUAD

BOARDING SPECIALISTS

ADEPTUS ASTARTES — LEGIONES ASTARTES (HORUS HERESY)

The bronze-shielded boarding infantry of the Heresy — sealed in heavy Mk III armour, advancing behind boarding shields into the most contested zones.

ABILITIES

Meltagun

[MELTA 2]

Flamer

[TORRENT] [IGNORES COVER] — auto-hits, which is why it has no BS characteristic.

Graviton Gun

[ANTI-VEHICLE 2+]

Thunder Hammer

[DEVASTATING WOUNDS]

Wall of Bronze (Boarding Shield)

Each time this unit is targeted by a ranged attack, it has a 4+ invulnerable save against that attack. In the Fight phase, this unit's Save characteristic is improved by 1 against incoming melee attacks (e.g. 3+ becomes 2+); a save can never be improved past 2+.

Implacable Advance

While this unit is within range of an objective marker, it ignores wounds lost from a failed Battle-shock test, and re-rolls Battle-shock tests.

Boarding Operations

Each time this unit makes a Charge move in the same turn it disembarked from a Drop Pod, Caestus Assault Ram, Kharybdis Assault Claw, or Boarding Torpedo, you can re-roll the Charge roll, and models in this unit have the [LETHAL HITS] ability on melee attacks that turn.

UNIT COMPOSITION

5 or 10 models: 1 Breacher Sergeant and 4-9 Breacher Legionaries. All models carry boarding shields. 1 in 5 models can replace its Legion Bolter with a Meltagun, Flamer, or Graviton Gun. The Sergeant can replace its close combat weapon with a Power Weapon or Thunder Hammer.

Designer's Note. Breacher Squads are the bronze-shielded boarding infantry of the Heresy — sealed in heavy armour and Mk III variants, advancing behind boarding shields into the most contested zones. No direct 10e/11e analog: canonical Sternguard are veterans but lack the boarding-shield 4+ ranged-invuln mechanic. HB design: anchored on the canonical Tactical Squad statline plus a 4+ invuln vs ranged attacks (the shield) and a melee Save-improver. Boarding Operations is the canonical "rolled out of an assault transport" rule. 100 pts for 5 / 200 pts for 10 — parity with Sternguard but trading long-range firepower for the boarding-shield defensive package. **11th-edition verification, 2026-08-30:** real profiles confirmed in `Legiones Astartes.json` (Breach Sergeant and Breacher Legionary) — SAV3+ matched this card exactly, no correction needed. Real data also shows INV5+, but this is represented on the card by the situational "Wall of Bronze" 4+ ranged invuln rather than a flat invulnerable save stat — no separate invuln line needed.
