Honoured Ancient

This Dreadnought interred a pre-Heresy Legionary of significant honour. Once per battle, each time this model fights, you can re-roll all failed Hit rolls in melee against a single enemy unit.

Legacy Plating

Each time an attack with a Damage characteristic of 1 is allocated to this model, an unmodified Save roll of 6 reduces that attack's Damage to 0.

UNIT COMPOSITION

1 Castra Ferrum Dreadnought model. This model is equipped with: 1 Twin Lascannon (or Multi-Melta, or Plasma Cannon); 1 Storm Bolter; 1 Castra Ferrum Power Fist (or Dreadnought Close Combat Weapon).

Designer's Note. Castra Ferrum is the original MK I Dreadnought pattern — the pre-Contemptor Dread. Heavier and slower than a Contemptor but cheaper. Canonical Contemptor (Legends) is similar, but Castra Ferrum is the explicitly older, more rugged variant. HB: T9/Sv2+/W8 (1 below Contemptor) plus a once-per-battle re-roll-all-Hit-fails vs one target (the Ancient remembers) and Damage-1 attacks getting a 6+ negation. 125 pts (cheaper than the 145 Contemptor Legends costs) — the Legion's most-fielded Dreadnought during the Heresy. **11th-edition verification, 2026-08-30:** real profile in `Legiones Astartes.json` is SAV2+/INV5+ (typed "Walker (Heavy)") —

card's SV2+ already matched, but no invuln was listed at all; added the missing INV5+ (maps directly per established convention).
