

DELEGATUS

INDEPENDENT OPERATOR

ADEPTUS ASTARTES — LEGIONES ASTARTES (HORUS HERESY)

A Praetor-tier officer detached from the main Legion force on an independent mission — assassination, retrieval, behind-enemy-lines disruption — operating outside the Legion's ordinary chain of command.

Lone Operative

This model cannot be selected as the target of attacks unless it is the closest visible enemy model to the attacking unit.

Self-Sufficient

This model automatically passes Battle-shock tests and ignores wound-allocation modifiers from enemy abilities.

Detached Authority

This model can be declared your Warlord at the start of the battle instead of a Praetor. Friendly Legiones Astartes units within 6" of this model have the Stealth ability while below half strength.

Strike of the Independent

Once per battle, in the Fight phase, after this model fights, it can immediately make a Normal move of up to 6", even within Engagement Range of an enemy unit.

UNIT COMPOSITION

1 Delegatus model, in one of the Armour Variants listed above. Equipped with: 1 Master-Crafted Bolter (or Plasma Pistol); 1 Paragon Blade (or paired Lightning Claws).

Designer's Note. A Delegatus is a Praetor-tier officer detached from the main Legion force on an independent mission — assassination, retrieval, behind-enemy-lines disruption. The "Lone Operative" version of the Praetor archetype. HB: identical to Praetor's base statline minus the Aura, plus Lone Operative, Self-Sufficient, and a once-per-battle 6" post-fight move. 95 pts (lower than Praetor's 110 — trades the Aura for Lone Operative solo mobility).

11th-edition verification, 2026-08-30: real profiles cross-checked per variant in `Legiones Astartes.json` — base Delegatus SAV2+/INV5+ (card had SV3+/INV4+, corrected both — real base invuln matches Centurion-tier, not Praetor's 4+), Cataphractii Delegatus SAV2+/INV4+ (already matched), Outrider Delegatus SAV2+/INV5+ (card had SV3+/INV4+, corrected both). No Saturnine Delegatus variant exists in either the original card or current BSDData — consistent, not an omission. No standalone Tartaros Delegatus profile exists in current data (same pattern as Praetor/Centurion) — kept as an interpretive design choice.
