Designer's Note. Praetor is the senior-most non-Primarch HQ of a Legion — Captain-equivalent in rank but Heresy-era armed and entitled. HB design: canonical 10e/11e Captain baseline (T4 W5 Sv2+ 4+ inv) with BS/WS 2+ (master-crafted everything) plus the iconic Paragon Blade (S6 AP-3 D2). The Master of the Legion aura mirrors canonical Captain auras but stacks Hit-1 re-rolls (ranged AND melee) with Battle-shock re-rolls. Faction-neutral by design — usable by any of the 18 Legions, Loyalist or Traitor. **11th-edition verification, 2026-08-30:** `Legiones Astartes.json` splits Praetor across several separate BSData unit entries per armour type rather than one unit with options, as this card presents it — real profiles cross-checked per variant: base Praetor SAV2+/INV4+ (card had SV3+, corrected), Cataphractii Praetor SAV2+/INV4+ (already matched), Saturnine Praetor SAV2+/INV4+ (already matched, this card's own 3+-vs-Psychic upgrade is intentional homebrew design, kept as-is), Outrider Praetor SAV2+/INV4+ (card had SV3+, corrected). No standalone "Tartaros Praetor" profile exists in current BSData (only Cataphractii is broken out under "Praetor in Terminator Armour") — kept the Tartaros row as an interpretive design choice since Tartaros armour itself remains a real, current option for Terminator-armoured troops generally, just not specifically paired with a Praetor-rank model in today's data.
