SENIOR APOTHECARY

ADEPTUS ASTARTES — LEGIONES ASTARTES (HORUS HERESY)

Leader

This model can be attached to one of the following units: Tactical Squad, Veteran Tactical Squad, Breacher Squad, Despoiler Squad, Tactical Support Squad, Seeker Squad, Heavy Support Squad, Recon Squad, or Veteran Assault Squad (Power Armour-equipped models only).

Leader (Terminator variants)

While in a Terminator armour variant, this model can instead be attached to a Cataphractii, Tartaros, or Saturnine Terminator Squad (matching armour type), or a Praetorian Command Squad.

Leader (Jump Pack variant)

While in the Jump Pack variant, this model can instead be attached to a Veteran Assault Squad or any other Jump Pack-equipped unit.

Master of the Apothecarion

While a friendly Legiones Astartes unit is within 6" of this model, that unit has the Feel No Pain 5+ ability. (Does not stack with an Apothecary's own Nartheicum — a unit within both ranges uses whichever is better.)

Master Reductor

Once per battle, at the start of your Movement phase, select one friendly Legiones Astartes unit within 6" of this model that has had a model destroyed earlier in the battle. Return one destroyed model to that unit, set up wholly within the unit and not within Engagement Range of any enemy unit.

Nartheceum

In your Command phase, this model heals 1 wound on itself, or on any friendly Legiones Astartes Character model within 3".

UNIT COMPOSITION

1 Primus Medicae model, in one of the Armour Variants listed above. Equipped with: 1 Bolt Pistol; 1 Power Weapon; 1 Nartheceum.

Designer's Note. Primus Medicae is the senior Apothecary of a Legion — far more capable than the squad-attached Apothecary, with battlefield-wide healing and a once-per-battle revive. Canonical 10e/11e Apothecary Biologis covers part of the role; the HH version has a stronger Aura (6" 5+ Feel No Pain for any friendly Legiones Astartes unit). HB: standard Captain-tier T4/Sv2+/W5/5+ inv plus a 6" FNP 5+ aura, a once-per-battle revive of a destroyed model, and a Command-phase wound heal on self or a nearby Character. 80 pts. **11th-edition verification, 2026-08-30:** real profiles cross-checked in `Legiones Astartes.json` — base Primus Medicae SAV2+/INV5+ (card had SV3+, corrected), Cataphractii Primus Medicae SAV2+/INV4+ (already matched). No Jump Pack variant exists in current BSDData for this unit at all (unlike Praetor/Centurion/Delegatus/Legion Champion, which do have one) — kept the card's existing Jump Pack row, mirroring the base statline's SAV/INV correction, as an interpretive design choice consistent with those sibling cards. No standalone Tartaros profile exists either (same pattern as all prior HQ cards).
