

SEEKER SQUAD

VETERAN MARKSMEN, ANTI-CHARACTER

ADEPTUS ASTARTES — LEGIONES ASTARTES (HORUS HERESY)

Heresy veterans equipped with bespoke ammunition selectors, scope arrays, and the patience to wait an entire battle for a single killshot — anti-Character first, anti-armour second.

ABILITIES

Scoped Legion Bolter

[HEAVY] [PRECISION]

Combi-Weapon

[ANTI-INFANTRY 4+] [DEVASTATING WOUNDS]

Mark of the Hunter

At the start of your Command phase, you can select one enemy Character unit on the battlefield as the squad's Mark. Until the start of your next Command phase, each time a model in this unit makes a ranged attack against the marked Character's unit, you can re-roll the Hit roll and re-roll the Wound roll.

Specialist Ammunition

At the start of each of your Shooting phases, select one of the following ammunition types for this unit's bolter attacks until the end of that phase: Banestrike ([ANTI-INFANTRY 4+]), Tempest ([DEVASTATING WOUNDS]), or Vengeance ([ANTI-VEHICLE 4+] and +1 to the AP characteristic, but Range is halved to 12").

Stalkers

This unit has the [INFILTRATORS] and [STEALTH] abilities.

UNIT COMPOSITION

5 or 10 models: 1 Seeker Sergeant and 4-9 Seeker Legionaries (veterans). All models carry Scoped Legion Bolters, Bolt Pistols, and ammunition selectors. The Sergeant can take a Power Weapon, Plasma Pistol, or Combi-Weapon.

Designer's Note. Seeker Squads are Heresy veterans equipped with bespoke ammunition selectors, scope arrays, and the patience to wait an entire battle for a single killshot. The HH version is anti-Character first and anti-armour second. Canonical 10e/11e's closest analog is Sternguard Veterans, but Seekers carry the per-phase ammunition selector as a core mechanic, not a one-time choice. HB design: T4/W2/Sv3+ veteran statline plus Precision on the scoped bolter, a per-Command-phase Character mark, and a per-Shooting-phase ammunition selector that swaps the squad between Anti-Infantry, Devastating Wounds, and Anti-Vehicle modes. 110 pts for 5 /

210 for 10 sits at canonical Sternguard pricing with the ammunition flexibility justifying the premium. **11th-edition verification, 2026-08-30:** real profiles confirmed in `Legiones Astartes.json` (Seeker and Seeker Sergeant) — SAV3+ matched this card exactly, no invuln in either, no correction needed.
