Kytan Skullhewer

[DEVASTATING WOUNDS] [SUSTAINED HITS 2]

Daemonic

This model has a 4+ invulnerable save (3+ against Psychic attacks) — an upgrade over the standard Daemon Engine's 5+, reflecting the Kytan's tougher shielding. Each time this model would lose its last wound, before it is destroyed roll one D6: on a 6, it has 1 wound remaining instead.

Doctrina Imperatives

This model gains the effect of the chosen Doctrina Imperative each Command phase (Conqueror: Hit roll of 6 scores an additional Hit; Protector: enemy Hit rolls suffer -1). See faction ability card.

Iron Discipline

This unit automatically passes Battle-shock tests.

Skull-Tally

Each time this model destroys an enemy unit in melee, until the end of the battle, this model has +1 to the Wound roll on its melee attacks (cumulative, max +3).

UNIT COMPOSITION

1 Kytan Daemon Engine model. This model is equipped with: 1 Twin Kytan Plasma Cannons; 1 Kytan Skullhewer.

Designer's Note. HH3e Kytan Daemon Engine. Knight-equivalent Khorne daemon engine. Anchored on Knight-tier (T12 W22), 4+ invuln reflects HH3e's tougher Kytan shielding vs. a standard Daemon Engine's 5+. Skullhewer is the canonical Kytan two-handed greataxe. Skull-Tally is the canonical Khorne-flavoured snowball ability. **11th-edition verification, 2026-08-28:** confirmed still current in fresh HH3e BSData ('Mechanicum.json', non-hidden, typed "Automata (Malefic, Unstoppable)"). Real base SAV2+/INV5+ match; the 4+ upgrade is this card's own intentional design (already explained in its ability text), not a data error — kept as-is, merged the two previously-separate "Daemonic"/"Daemonic Invulnerable" ability entries into one clean entry.
