Designer's Note. HH3e basic Tech-Priest — the cheapest Mechanicum character, intended to enable the Sacred Algorithms detachment rule on a budget. No Cybertheurgist (that's reserved for Magos+). Battlesmith still present so he can repair vehicles. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSDData (`Mechanicum.json`, non-hidden, typed "Infantry (Sergeant, Specialist)"). Real SAV3+/INV6+ found — corrected this card's SV from 4+ to 3+ and added the missing INV6+ (both map directly per established convention).
