Atomantic Shielding

This model has a 5+ invulnerable save.

Cortex Controller

While this unit is within 12" of a friendly Tech-Priest model, each time a model in this unit makes an attack you can re-roll a Hit roll of 1. If the friendly Tech-Priest has the Cybertheurgist keyword, re-roll all Hit rolls of 1 instead.

Implacable Programming

This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back against its preprogrammed orders.

Doctrina Imperatives

This model gains the effect of the chosen Doctrina Imperative each Command phase (Conqueror: Hit roll of 6 scores an additional Hit; Protector: enemy Hit rolls suffer -1). See faction ability card.

Siege Cogitator

Each time this model makes an attack that targets a Vehicle, Monster, Battle-Automata, or Fortification unit, you can re-roll Wound rolls of 1.

UNIT COMPOSITION

Designer's Note. HH3e Thanatar Siege Maniple. The heaviest Battle-Automata chassis short of an Ordinatus. Statline approaches Knight-tier (T11 W12) reflecting siege-class armour. Hellex plasma mortar is the canonical HH3e Thanatar armament; Calix and Cynis variants listed as wargear options to consolidate the three Thanatar sub-patterns into one card. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData (`Mechanicum.json`, non-hidden, typed "Automata (Heavy)"). Real SAV2+/INV5+ matched exactly. This card was missed from the initial folder tracking list and caught after the fact — flagged by the user during the folder-completion review.
