COMBAT PATROL

INSIDIOUS INFILTRATORS

TYRANIDS | WARHAMMER 40,000 | 11TH EDITION

Sent ahead of the main Tyranid fleet, these specially adapted vanguard organisms make landfall and infiltrate the enemy's positions, taking out key targets while assimilating vital knowledge on the planet's defences. Death's Shadow and its Lictor kin excel at infiltration, assassination and the destruction of key enemy units, while Von Ryan's Leapers deliver swift, savage strikes wherever the swarm needs them most.

ARMY RULES

SYNAPSE

While a Tyranids unit from your army is within 6" of one or more friendly Synapse models, that Tyranids unit is said to be within Synapse Range of those models and of your army. Each time a Tyranids unit from your army takes a Battle-shock test, if it is within Synapse Range of your army, take that test on 3D6 instead of 2D6.

SHADOW IN THE WARP

Tyranids flood the battlefield with the psychic signature of the hive fleet, an icy, alien dread that gnaws at the minds of their prey and smothers even the most stalwart courage.

Once per battle, in either player's Command phase, if one or more units from your army with this ability are on the battlefield, you can unleash the Shadow in the Warp. When you do, each enemy unit on the battlefield must take a Battle-shock test.

DETACHMENT RULE

INSIDIOUS INFILTRATORS

Detachment Points: To use this detachment you must spend 1 DP.

SHADOW-BORN AMBUSH

Each time a unit from this detachment ends a Charge move against a Battle-shocked enemy unit, until the end of the phase, melee weapons equipped by models in your unit have the [LETHAL HITS] ability.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Disruption.

ENHANCEMENTS

NEUROGOAD — *Insidious Infiltrators Death's Shadow unit only*

In your Command phase, select one friendly Tyranids unit within 12" of the bearer. Until the start of your next Command phase, you can re-roll Charge rolls made for that unit, and each time a model in that unit makes an attack, you can re-roll the Hit roll.

PSIONIC PHANTOMS — *Insidious Infiltrators Lictor unit only*

Once per battle round, when the bearer is selected as the target of one or more shooting attacks made by models from an enemy unit, it can use this Enhancement. If it does, it can make a Normal move of up to 6". If the bearer is then no longer visible to that enemy unit, roll one D6; on a 1-3, the models targeting the bearer can select new targets for their attacks. On a 4-6, the models targeting the bearer cannot select new targets for their attacks and so do not make any attacks this phase.
