THE DRONE-FORTRESS

T'AU EMPIRE • FARSIGHT ENCLAVES • THE EIGHT

O'Vesa is more drone-handler than gunslinger. His Crisis suit serves as the central hub of a swarm of three Shield Drones that orbit him in protective patterns, projecting overlapping invulnerable shield fields.

See Army Rule.

Shield Drone Network
This model is accompanied by 3 Shield Drones. Attacks targeting this model suffer -1 to the Wound roll. Once per battle round, when this model would lose a wound from an attack, you may sacrifice a Shield Drone to ignore that attack on a roll of 4+.

Mobile Fortress [AURA]
While a friendly Battlesuit unit is within 6" of this model, models in that unit have a 5+ Feel No Pain against Mortal Wounds.

Drone Maintenance
In your Command phase, you can return 1 destroyed Shield Drone to this model. This can only restore Shield Drones that were destroyed earlier in the battle, and only once per battle round.

Twin Plasma Rifle
[RAPID FIRE 1] [TWIN-LINKED]

Fusion Blaster
[MELTA 2]

Designer's Note. O'Vesa is the defensive anchor — his canonical loadout is plasma + fusion blaster surrounded by a shield drone swarm. Shield Drone Network gives him -1 to Wound (a unique survivability tier) plus a once-per-battle-round damage save. Mobile Fortress projects that survivability onto nearby Battlesuit units (other members of the Eight especially). Drone Maintenance lets the swarm regenerate, capturing the lore detail that his drones are repaired between engagements. **11th-edition verification, 2026-08-30:** checked current 11e BSData directly — no match for "O'Vesa" anywhere, consistent with "The Eight (Farsight Enclaves)" being confirmed as genuinely unsupported content during this project's Excel fully-gone triage. No stat corrections possible; kept as-is from the prior 10e conversion pass. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
